## **Robin Hood: the History and Folklore of the English Legend**

2013-08-19

this first comprehensive treatment of arthurian literature in the english language up until the end of the middle ages is now available for the first time in paperback english people think of arthur as their own stamped on the landscape in scores of place names echoed in the names of princes even today yet some would say the english were the historical arthur s bitterest enemies and usurpers of his heritage the process by which arthurian legends have become an important part of england s cultural heritage is traced in this book previous studies have concentrated on the handful of chivalric romances which have given the impression that arthur is a hero of romantic escapism this study seeks to provide a more comprehensive and insightful look at the english arthurian legends and how they evolved it focuses primarily upon the literary aspects of arthurian legend but it also makes some important political and social observations

2008-01-01

among the narrative traditions of the middle ages the robin hood legend holds a unique important and often overlooked position robin hood s uniqueness and importance begins with his status as the only english contribution to world mythology his is also the only lasting myth to arise from the high middle ages and the last

western legend to achieve a sustained international appeal several robin hood ballads survive from the middle ages and from the 15th to the 17th centuries he figured prominently in folk drama since then he has appeared in numerous proverbs placenames operas novels children s stories films and television series a tale told so often must be profoundly significant to the society that retells it yet in spite of its importance and popularity the legend of robin hood has received surprisingly little study this book overviews the genesis and development of the robin hood legend from the middle ages to 1700 as is appropriate for a work that bridges the divide between the worlds of fiction and history this volume incorporates the strengths of both historical and literary approaches respecting both the circumstances of the historic setting and the legend s status as a fictive creation the principal focus of the book is the interaction between the text and the social context in which the legend arose and developed the first two chapters examine the early robin hood tradition including the initial nondramatic manifestations of the legend and the later dramatic representations the volume then looks at the transformation of the legend in the 16th and 17th centuries and considers how the various elements of the legend interacted with each other and with society as a whole

making history from the moment of her birth england s queen elizabeth i 1533 1603 was a legend within her own lifetime to her supporters elizabeth i was gloriana the faerie queene a dignified and powerful woman who ruled with cunning and skill for forty four years to her detractors she was the ruthless supporter of a false religion the murderer of her cousin mary queen of scots a wanton woman herself illegitimate who sullied the crown with her licentious behavior the legends that have grown up around elizabeth are fascinating but as this book shows the truth is just as remarkable in elizabeth i ruler and legend clark hulse brings elizabeth to life combining text and images to tell her story through the objects handed down by history commemorating the four hundredth anniversary of elizabeth s death this handsome volume contains over one hundred photographs of books manuscripts maps letters paintings clothing furniture and many more artifacts dating from her reign each of these objects tells a story and hulse uses them as a starting point for a broad and thorough examination of elizabeth and the society in which she lived beginning with an analysis of the political events surrounding her birth the book describes elizabeth s relationship with her father henry viii and the maneuvering that led to her eventual coronation upon the death of her half sister mary tudor in 1558 as queen elizabeth oversaw a period of breathtaking cultural achievement she kept england from being torn apart by the religious wars raging across europe and she withstood both an assassination plot and the massive military threat of the spanish armada this book addresses all these major events as well as a whole host of lesser known aspects of elizabeth s reign hulse includes discussions of topics such as the education of tudor women markers of identity portraits of elizabeth the queen s speaking style her interest in america music at the tudor court and literary depictions of elizabeth

by shakespeare spenser and other poets

## ***The English Legend of Heinrich Heine***

1954

tyack delves into the myths and legends that surround the english church exploring everything from holy wells and mysterious stones to ghosts and fairies he also provides a historical and archaeological context for these stories making this a valuable resource for anyone interested in english folklore this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

2016-08-26

with his beloved gothic tales washington irving is said to have created the genre of the short story in america though irving crafted many of the most memorable characters in fiction from rip van winkle to ichabod crane his gifts were not confined to the short story alone he was also a master of satire essay travelogue and folktale as evidenced in this classic collection henry wadsworth longfellow said every reader has a first book which in early youth first fascinates his imagination and at once excites and satisfies the desires of his mind to me this first book was the sketch book of washington irving the charm of the sketch book remains unbroken the old fascination still lingers about it

## **Sir Orfeo, a Legend from England**

1973-01-01

an abundance of literature exists on the subject of the rhine and its legends but with few exceptions the works on it which are accessible to english speaking peoples are antiquated in spirit and verbiage and their authors have been content to accept the first version of such legends and traditions as came their way without submitting them to any critical examination it is claimed for this book that much of its matter was collected on the spot or that at least most of the tales here presented were perused in other works at the scene of the occurrences related this volume is thus something more than a mere compilation and when it is further stated that only the most characteristic and original versions and variants of the many tales here given have gained admittance to the collection its value will become apparent it is of course no easy task to infuse a spirit of originality into matter which has already achieved such a measure of celebrity as have these wild and wondrous tales of rhineland but it is hoped that the treatment to which these stories have been subjected is not without a novelty of its own one circumstance may be alluded to as characteristic of the manner of their treatment in this work in most english books on rhine legend the tales themselves are presented in a form so brief succinct and uninspiring as to rob them entirely of that mysterious glamour lacking which they become mere material by which to add to and illustrate the guide book the absence of the romantic spirit in most english and american compilations dealing with the rhine legends is noteworthy and in writing this book the author s intention has been to supply this striking defect by retaining as much of the atmosphere of mystery so dear to the german heart as will convey to the english speaking reader a true conception of the spirit of german legend but it is not contended that because greater space and freedom of narrative scope than is usual has been taken by the author the volume would not prove itself an acceptable companion upon a voyage on rhine waters undertaken in holiday times of peace indeed every attempt has been made so to arrange the legends that they will illustrate a rhine journey from sea to source the manner in which the majority of visitors to germany will make the voyage and to this end the tales have been marshalled in such form that a reader sitting on the deck of a rhine steamer may be able to peruse the legends relating to the various localities in their proper order as he passes them there are included however several tales relating to places which cannot be viewed from the deck of a steamer

but which may be visited at the cost of a short inland excursion these are such as from their celebrity could not be omitted from any work on the legends of rhineland but they are few in number the historical development folklore poetry and art of the rhine country have been dealt with in a special introductory chapter the history of the rhine basin is a complicated and uneven one chiefly consisting in the rapid and perplexing rise and fall of dynasties and the alternate confiscation of one or both banks of the devoted stream to the empires of france or germany but the evolution of a reasoned narrative has been attempted from this chaotic material and so far as the author is aware it is the only one existing in english the folklore and romance elements in rhine legend have been carefully examined and the best poetic material upon the storied river has been critically collected and reviewed

2003

in new legends of england catherine sanok examines a significant albeit previously unrecognized phenomenon of fifteenth century literary culture in england the sudden fascination with the lives of british anglo saxon and other native saints embodying a variety of literary forms from elevated latinized verse to popular traditions such as the carol to translations of earlier verse legends into the medium of prose the middle english lives of england s saints are rarely discussed in relation to one another or seen as constituting a distinct literary genre however sanok argues these legends when grouped together were an important narrative forum for exploring overlapping forms of secular and religious community at local national and supranational scales the monastery the city and local cults the nation and the realm european christendom and at the end of the fifteenth century a world that was suddenly expanding across the atlantic reading texts such as the south english legendary the life of st etheldrede the golden legend and poems about saints wenefrid and ursula sanok focuses especially on the significance of their varied and often experimental forms she shows how middle english lives of native saints revealed through their literary forms modes of affinity and difference that in turn reflected a diversity in the extent and structure of medieval communities taking up key questions about jurisdiction temporality and embodiment new legends of england presents some of the ways in which the lives of england s saints theorized community and explored its constitutive paradox the irresolvable tension between singular and collective forms of identity
