A Model of Junior Officer Jobs for Use in Developing Task Inventories 1965 a job description procedure was developed for use by army service schools in identifying all of the tasks performed by junior officers in a job assignment this procedure was based on a model of officer job behavior illustrating the nature and sequence of tasks performed to attain specific goals within each area of responsibility the behavior model was itself developed from considerations of existing job descriptions the nature of job information typically provided by interviews with officers and an information processing view of purposive behavior application of the description technique to one officer job yielded 816 tasks covering troop leadership and unit management as well as tactical and technical functions general statements of work were effectively broken into task level statements of job activities the technique should provide a practical means for describing most supervisory and command jobs characterized by a high proportion of variable nonroutine and covert activities author

Information Security Officer: Job profile, necessary qualifications, and awareness raising explained in a practical way 2021-02-23 congratulations on your new job as an information security officer what does this responsibility actually entail how will you manage not to get bogged down how are you going to keep all the relevant issues in mind how will you get started this book is intended to help you take a holistic approach to information security while retaining an overview of the topic its primary aim is to impart the essentials of the it grundschutz approach both as theory and practice as per the bsi standards 200 x this book not only serves as a practical guide to basic protection but also allows you to understand the procedure on your own computer as a mini scenario another focus is on awareness raising trainings for employees of your institution targeted at specific groups these trainings will need to be individually initiated planned implemented and evaluated we deal with the relevant technical and organizational aspects and focus on a discursive learning atmosphere devoted to interpersonal exchange experience oriented learning scenarios and practical demonstrations designed to achieve a sustained effect and benefit all employees have fun reading and good luck with implementing the ideas

Officer Grade Requirements Project 1965 the officer grade requirements project was undertaken to determine an optimal air force officer grade structure stated in terms of the number of officers required in grades lieutenant through colonel due to its scope several reports are necessary to explain the project the first report of the series gave the purpose phases and a description of the method and preliminary findings the present report describes in detail the three following steps of the project 1 development of a suitable format and collection of standardized job descriptions of the work performed by approximately 80 000 officers 2 selection of a criterion sample of 3 575 descriptions representing all levels and types of officer jobs 3 selection and conduct of a headquarters usaf policy board to provide criterion measures grade ratings for the job sample author

Officer Grade Requirements Project. Ii. Job Descriptions, Sample Selection, and Criterion Board 1965 using data collection procedures developed for airman career fields the 6 specialties in the r and d management utilization field were surveyed a job inventory composed of 373 task statements and a background information sheet was developed and mailed to all air force r and d management officers analysis of 825 completed inventories by an iterative grouping technique allocated 675 of the officers jobs to 27 job types each including at least 5 jobs the dominant job type r and d manager included nearly half of the r and d management officers most of the job types cut across grade levels and organization levels reported minimum academic requirements were a bachelor s degree with major in

science or engineering some officers considered graduate training in management or administration desirable and some suggested additional experience in operational commands the incumbent officers averaged more experience and education than they judged to be minimal an appendix gives the computer printouts of job descriptions for two of the identified job types r and d project staff officer foreign technology staff officer
