## **Strategies to Improve Cardiac Arrest Survival**

2015-09-29

cardiac arrest can strike a seemingly healthy individual of any age race ethnicity or gender at any time in any location often without warning cardiac arrest is the third leading cause of death in the united

**2015-10-10**

**12/32**

aha cpr guidelines 2012

states following cancer and heart disease four out of five cardiac arrests occur in the home and more than 90 percent of individuals with cardiac arrest die before reaching the hospital first and foremost cardiac arrest treatment is a community issue local resources and personnel must provide appropriate high quality care to save the life of a community member time between onset of arrest and provision of care is fundamental and shortening this time is one of the best ways to reduce the risk of death and disability from cardiac arrest specific actions can be implemented now to decrease this time and recent advances in science could lead to new discoveries in the causes of and treatments for cardiac arrest however specific barriers must first be addressed strategies to improve cardiac arrest survival examines the complete system of response to cardiac arrest in the united states and identifies opportunities within existing and new treatments strategies and research that promise to improve the survival and recovery of patients the recommendations of strategies to improve cardiac arrest survival provide high priority actions to advance the field as a whole this report will help citizens government agencies and private industry to improve health outcomes from sudden cardiac arrest across the united states

## Markets and Development

2017-10-02

markets and development presents a series of critical contributions focused on the political relationship between citizens civil society and neoliberal development policy s latest form the dramatic increase of access to finance investments newly gender sensitive approaches to building neoliberal labour markets the universal promotion of public private partnerships and the development financing of extractive industries have all seen citizens social movements and ngos variously engaged in and against neoliberalism like never before the precise form that this engagement takes is conditioned by both the perceived and real opportunities and the risks of an agenda which seeks to intern emerging and frontier markets deep within a concretising world market with transformative repercussions for both those involved and notably for state society relations the contributors to this volume focus on essential aspects of the contemporary neoliberal development agenda and its relationship to and with citizens and civil society tackling questions related to the roles that various actors within civil society in the underdeveloped world are playing under late capitalism and how these roles relate to current efforts to establish and extend markets and market society more broadly in a neoliberal image this book was

originally published as a special issue of globalizations

2023-03-09

there are many issues of arbitral practice that remain largely unaddressed or very poorly addressed in the sources to which tribunals and counsel conventionally turn for procedural guidance the arbitration agreement the lex arbitri and rules of procedure this book brings together the most frequently recurring of such twilight issues so called because all participants in the arbitral process when facing them find

themselves in the dark showing in each case where it is best for arbitrators counsel and parties to look for solutions offering logic certainty and predictability the issues ably covered by the author include among others the following is a non signatory bound by or entitled to invoke an arbitration agreement when may res judicata or collateral estoppel subject should a tribunal issue an anti suit injunction when may a tribunal treat as mandatory a law other than the chosen one on what basis may a witness invoke testimonial privilege when may a tribunal sanction counsel for what it considers misconduct by what standards is a determination of corruption to be made how should a tribunal determine the interest rate applicable to an award on what basis are costs to be allocated examining in turn the guidance that may be provided by normative sources national law and if so which one simple exercise of good judgment or international standards derived from soft law arbitral jurisprudence international law and scholarly and professional commentary the analysis clearly shows how when conventional sources of legal guidance are unavailing decisions on important matters of arbitral practice and procedure are best made the book will prove of major relevance and value to any and all stakeholders in the international arbitral process whether commercial or investor state
