days are over the real players in this industry are real executives that knows how to operate in an ever changing market this guide is for both new and experienced webmasters the more experienced readers will want to skip some sections while the less experienced should read it all please remember that while all of this certainly works for me different things works for different reasons so if you are not seeing results as fast as expected or if you nothing something is not working for you try something else and keep trying it is almost impossible to make any form of guarantees in this world other than the fact that prices will rise that taxes suck and that we all grow old but i will promise you this if you put in the hours are persistent and willing to track reflect and learn from your mistakes you will make it when i started out i spent two three hours every evening i had a full time job that had nothing to do with this now i this is my full time job and i love it i have the freedom to do whatever i want i have a solid team of people that works for me around the globe we all work from our homes if i do not want to work i will still be making money it does not matter where i am or what i am doing i am still making money how is that possible well that is what i aim to show you in this guide the beauty of the internet is that you do not always need to be there to open the door for the customer and server them our machines will do that and you can focus on withdrawing your money from the automated teller machines however let us not get ahead of ourselves because i kid you not if you ware free to do whatever you please with your time and still make lots of mtime a lot of time never give up never surrender and never ever spenyou get them in the first many months i was taking almost all the income i made and poperation now if you have a company or not that is a different talk yoone for the first 6 12 months most countries allow you to operate withoregistration number the first year and then your accountant can deal withyour operations nevertheless check the rules in your country please the reason you want to reinvest the money is that you want to grow growth is the key to success in almost every single industry you need to grow in order to grow you need more or bigger websites more servers more traffic more sales more advertising and more people now i am not saying that you should not enjoy yourself please do all work and no play can break most people but know that if you reinvest at least 50 of your income in your operation for the first 6 12 months you will be able to reach your goal much faster than if you party all the time speaking of partying there are some rules that i highly recommend you follow keep your dick in your pants or you will not get anything done make to do lists and get the things on them done if it takes less than 2 minutes to do do it it is called the 2 min rule look it up read all of this guide seriously print it read it use it as a reference but do not just skim it maintain your focus keep working hard and you will make it
