senator rand paul was on to anthony fauci from the start wielding previously unimaginable power fauci misled the country about the origins of the covid pandemic and shut down scientific dissent one of the few leaders who dared to challenge america's doctor was senator rand paul himself a physician deception is his indictment of the catastrophic failures of the public health bureaucracy during the pandemic senator paul presents the evidence that the covid virus was likely the product of gain of function research at the wuhan lab in china research funded in part by the u s government taxpayer dollars for that research were deceptively funneled to wuhan without the required regulatory review fauci and his scientific yes men knew from day one about covid's origin and tried to cover it up fauci and his allies ruthlessly attacked everyone including highly qualified scientists who threatened to reveal the truth about the pandemic why hundreds of millions of dollars of grants and unreported royalties were at stake and heads would roll if the truth got out it almost worked at fauci's insistence the government imposed needlessly extreme lockdowns on americans at the cost of immense personal and economic destruction covid 19 was deadly but the real killer was the coverup led by america's most durable medical bureaucrat a man for whom the truth was too often expendable senator paul makes a powerful case that funding dangerous bioengineering in a totalitarian country is madness if we don't heed this warning the next pandemic could be far worse

The Case Against Socialism

2019-10-15

a recent poll showed 43 of americans think more socialism would be a good thing what do these people not know socialism has killed

millions but it's now the ideology du jour on American college campuses and among many leftists reintroduced by leaders such as Bernie Sanders and Alexandria Ocasio-Cortez. The ideology manifests itself in starry-eyed calls for free spending policies like Medicare for All and student loan forgiveness. In the case against socialism, Rand Paul outlines the history of socialism from Stalin's gulags to the current famine in Venezuela. He tackles common misconceptions about the utopia of socialist Europe as it turns out. Scandinavian countries love capitalism as much as Americans and have for decades been cutting back on the things Bernie loves. The most socialism's return is only possible because many Americans have forgotten the true dangers of the twentieth century's deadliest ideology. Paul reveals the devastating truth for every college student sporting a Che Guevara t-shirt: there's a Venezuelan child dying of starvation, desperate refugees flee Communist Cuba to escape oppressive censorship, rationed food, and squalid hospitals, not free healthcare. Socialist dictatorships like the People's Republic of China crush freedom of speech and run massive surveillance states while masquerading as enlightened modern nations far from providing economic freedom. Socialist governments enslave their citizens; they offer illusory promises of safety and equality while restricting personal liberty, tightening state power, sapping human enterprise, and making citizens dependent on the dole. If socialism takes hold in America, it will imperil the fate of the world's freest nation, unleashing a plague of oppressive government control. The case against socialism is a timely response to that threat and a call to action against the forces menacing American liberty.

Government Bullies

2012-09-11

Government regulations are out of control. They dictate how much water goes into your commode and how much water comes out of your showerhead. They determine how hot the water needs to be in your washing machine and how many miles to the gallon your car must achieve. Since the Patriot Act, your banking records, your gun registration, and your phone bill are easily accessible by government snoops. Mothers are arrested for buying raw milk. Families are fined for selling bunny rabbits without a license. Home and property owners are strapped with obscene fines, entangled in costly legal messes, and sent to federal prison, all for moving dirt from one end of their land to another. Unelected bureaucrats, armed with arbitrary rules and no need to back them up, stonewall and attack American citizens at every turn. The damage can be overwhelmingly taxing, financially, emotionally, and even physically, and who is being held accountable? Government regulation and red tape run amok in Washington, and honest tax-paying citizens are the victims of an administration's misuse and abuse of power. Now Senator Rand Paul of Kentucky takes an in-depth look at the legislation that is trampling the rights of ordinary citizens, strangling their ability to conduct private everyday activities without egregious government interference. He highlights outrageous searches, seizures, and arrests, and points to thousands of regulations that have been added to the books since Obama took office. Most importantly, he charts a direction out of this mess and toward renewed freedom for all Americans. These stories are of everyday Americans badgered and harassed by their own government, the very institution that is supposed to serve us. All this gross breach of our Constitution is as frightening as it is real, and *Government Bullies* is a call to action against it.
