Nursing's Social Policy Statement 2010 this waste water national policy statement nps will be used by the decision maker formerly the infrastructure planning commission ipc as the primary basis for deciding development consent applications for waste water developments that fall within the definition of of nationally significant infrastructure projects nsips in the planning act 2008 the nps sets out a justification for new waste water infrastructure and provides information on to two projects the proposed treatment works at deephams in north east london and the thames tunnel which will carry waste water from sewage overflows which currently run into the thames under the new guidelines applicants of nationally significant infrastructure projects will need to consider aspects such as the standard of design whether any alternatives exist to the project pollution control and wildlife conservation the government is taking measures to lessen demands on waste water infrastructure in england through sustainable drainage systems however more infrastructure is required to prevent environmental damage and poor water quality

Proposed National Policy Statement for Freshwater Management 2008-01-01 this national policy statement nps sets out national policy for renewable electricity infrastructure a further five technology specific npss for the energy sector cover national policy for the energy infrastructure en 1 isbn 9780108510779 fossil fuel electricity generation en 2 isbn 9780108510786 gas supply infrastructure and gas and oil pipelines en 4 isbn 9780108510809 the electricity transmission and distribution network en 5 isbn 9780108510816 and nuclear electricity generation en 6 isbn 9780108510823 an impact assessment is also available isbn 9780108510830 the npss have effect on the decisions by the infrastructure planning commission on application for energy developments this statement outlines the government s objectives for the power sector in order to meet its energy and climate change strategy it sets out the need for new energy infrastructure and the assessment principles and generic impacts

The draft National Policy Statement for Hazardous Waste 2011-12-14 this national policy statement nps sets out national policy for nuclear power generation a further five technology specific npss for the energy sector cover national policy for the energy infrastructure en 1 isbn 9780108510779

fossil fuel electricity generation en 2 isbn 9780108510786 renewable electricity infrastructure en 3 isbn 9780108510793 gas supply infrastructure and gas and oil pipelines en 4 isbn 9780108510809 and the electricity transmission and distribution network en 5 isbn 9780108510816 an impact assessment is also available isbn 9780108510830 the npss have effect on the decisions by the infrastructure planning commission on application for energy developments this statement outlines the government s objectives for the power sector in order to meet its energy and climate change strategy it sets out the need for new energy infrastructure and the assessment principles and generic impacts

Overarching national policy statement for energy (EN-1) 2011-07-19 this national policy statement nps sets out national policy for gas supply infrastructure and gas and oil pipelines a further five technology specific npss for the energy sector cover national policy for the energy infrastructure en 1 isbn 9780108510779 fossil fuel electricity generation en 2 isbn 9780108510786 renewable electricity infrastructure en 3 isbn 9780108510793 the electricity transmission and distribution network en 5 isbn 9780108510816 and nuclear power generation en 6 isbn 9780108510823 an impact assessment is also available isbn 9780108510830 the npss have effect on the decisions by the infrastructure planning commission on application for energy developments this statement outlines the government s objectives for the power sector in order to meet its energy and climate change strategy it sets out the need for new energy infrastructure and the assessment principles and generic impacts

National policy statement for waste water 2012-02-09 the national policy statement nps outlines the government s vision and policy for the future development of nationally significant infrastructure projects on the national road and rail networks but excluding hs2 it provides guidance for promoters of nationally significant infrastructure projects and the basis for the examination by the examining authority and decisions by the secretary of state chapters explore the need for development and the government s policy wider government policy on the national networks assessment principles generic impacts

National policy statement for renewable electricity infrastructure (EN-3) 2011-07-19 national policy statements nps are a key component of the new planning system for nationally significant infrastructure projects introduced by the planning act 2008 the act stipulates that a proposal for a national policy statement will be subject to public consultation and allows for parliamentary scrutiny before designation as national policy by the secretary of state the draft ports national policy statement department for transport 2009 has been welcomed by many organisations as a good start which can be built upon the committee has recommended a number of modifications and expects the department will improve the draft as a result of the consultation and scrutiny processes the committee has reservations regarding the government s 2007 policy for ports and the lack of guidance on location for port development in the nps but this of itself does not make the nps unfit for purpose but the committee cannot recommend designation at this stage on two counts firstly a key related policy statement the national networks nps has yet to be published secondly the organisation likely to be one of the principal decision makers for port development the marine management organisation has yet to be established and so has been unable to comment on guidance that will be of great importance to its role these are fundamental flaws in the consultation process and the ports nps should not be designated until they are rectified

National policy statement for nuclear power generation (EN-6) 2011-07-19 this document focuses on town centre planning policy applicable throughout england which should be taken into account by regional and local planning bodies in the preparation of regional spatial strategies and local development policies it contains four chapters which cover the following topics the government s objectives pro active town centre plans development control monitoring and review this document replaces revised planning policy guidance note ppg6 town centres and retail developments 1996 ed isbn 0117532940 and subsequent relevant policy statements

Ministerial Policy Statement 2007 the uk s 347 000 kilometre network of sewers and 9 000 sewage treatment works fulfil the vital function of

managing over 11 billion litres of waste water each day changing weather patterns and population growth are leading to increased volumes of waste water in some parts of the country in coming years there will be a need to construct new infrastructure to manage waste water in particular new infrastructure is needed in the river thames area to cope with population growth and to meet the european union s environmental requirements but the draft national policy statement nps on waste water needs radical improvement if it is to provide a valuable policy framework to guide decision makers the committee criticise the draft national policy statement for focussing on two specific london projects the thames tunnel and replacement of a sewage treatment works in north east london they argue that it should set out a strong set of general principles for decision makers to apply to any waste water project once a specific application is made rather than have site specific sections the planning act 2008 s new regime for nationally significant infrastructure nsips does not currently apply to the thames tunnel project a surprising omission given that this multi billion pound project is one of only two waste water projects likely to be of sufficient scale to come within the ambit of this nps the government must rectify this urgently

National policy statement for gas supply infrastructure and gas and oil pipelines (EN-4) 2011-07-19 what is an investment policy statement the ips provides the foundation for all future investment decisions to be made by an investor it serves as a guidepost identifying goals creating a system and discipline for a decisions a client said once the trustees adopted the investment policy statement we found that we were making our decisions in a deliberate fashion rather than in the heat of battle since we d already thought about how things would get done under a variety of circumstances we no longer found ourselves getting emotional planning ahead makes it easier for all of us when the investment markets get turbulent if you are an investment advisor financial planner stock broker insurance agent cpa or attorney advising your clients about their money this innovative book will be a key tool for working with clients

Addendum to Public Health Service Grants Policy Statement for Appalachian Health Demonstration Program 1977 the committee welcomes the production of the marine policy statement as the first step in the implementation of marine planning in the uk it is important that the marine management organisation mmo must be properly funded to carry out its work in implementing the mps and developing marine plans for english waters and the committee notes the announced cuts to the mmo s budget with concern it is important that the mps remains relevant and up to date if it is effectively to guide decision makers in the future and significant changes to the evidence on which it is based must be reflected in the contents of the mps but reviews should not be unnecessary or costly the report notes the concerns raised by consultees regarding the level of detailed guidance on the interaction between terrestrial and marine planning the committee comments on the absence of detailed guidance about policy priorities in the draft mps and feels it is essential that sufficient clarity is provided in individual marine plans finally the committee welcomes assurances that the fishing industry will not be adversely affected by implementation of the mps and will look to see that this is borne out in the development of marine plans

Department for Transport: Draft National Policy Statement for National Networks - December 2013 2013-12-04 waste water treatment infrastructure is essential for public health and a clean environment demand for new and improved waste water infrastructure is likely to be driven by the following i more stringent statutory requirements to protect the environment and water quality ii population growth and urbanisation iii replacement or improvement of infrastructure iv adaptation to climate change this national policy statement nps sets out government policy for the provision of major waste water infrastructure as defined in the planning act 2008 isbn 9780105429081 it will be used as the primary basis for deciding development consent applications for waste water developments that fall within the definition of nationally significant infrastructure projects nsip the publication is divided into four chapters and four annexes chapter 1 introduction chapter 2 government policy on need for waste water infrastructure chapter 3 factors for examination and determination of applications chapter 4 generic impacts
