Tarrying with the Negative 1993-10-19

following the work of prominent object relations theorists such as fairbairn suddie and winnicott gal gerson explores the correlation between analytical theory and intellectual environment in two ways he notes the impact that the british object relations school had on both psychology and wider culture and suggests that the school s outlook involved more than a clinical choice gerson first interprets the object relations model as a political theory that completes a certain internal development within liberalism he later outlines the relationship between the analytical theory and the historical setting in which it formed and took root by engaging with these questions gerson demonstrates the deeper structure and implications of object relation theory for social philosophy this allows him to answer

questions such as what kind of social arrangements do we endorse when we accept object relations theory as a fair description of mind what beliefs about power individuality and household structure do we take in what do we give up when doing so and lastly what does it say about contemporary advanced societies that they have taken in much of the theory s content proposing a novel rethinking of human nature individuality and ideology in british object relations theory provides much needed insight into how this school of psychoanalytic theory has impacted contemporary social and political life

in the courage of hopelessness maverick philosopher slavoj zizek returns to explore today s ideological political and economic battles and asks whether radical change is possible in these troubled times even the most pessimistic diagnosis of our future ends with an uplifting hint that things might not be as bad as all that that there is light at the end of the tunnel yet argues slavoj zizek it is only when we have admitted to ourselves that our situation is completely hopeless that the light at the end of the tunnel is in fact the headlight of a train that fundamental change can be brought about

critiquing postmodernism in contemporary discourses of race challenges the critical emphasis on otherness in treatments of race in literary and cultural studies sue j kim deftly argues that this treatment not only perpetuates narrow identity politics but obscures the political and economic structures that shape issues of race in literary studies kim s revelatory book shows how reading authors through their identity ends up neglecting both complex historical contexts and aesthetic forms this comparative study calls for a reconsideration of the bases for critical engagement and a reading ethics that melds the best of historicist and formalist approaches to literature

Slavoj Žižek a leading intellectual in the new social movements that are sweeping eastern Europe provides a virtuoso reading of Jacques Lacan Žižek inverts current pedagogical strategies to explain the difficult philosophical underpinnings of the French theoretician and practitioner who revolutionized our view of psychoanalysis he approaches Lacan through the motifs and works of contemporary popular culture from Hitchcock's Vertigo to Stephen King's Pet Sematary from McCullough's An Indecent Obsession to Romero's Return of the Living Dead a strategy of looking awry that recalls the exhilarating and vital experience of Lacan Žižek discovers fundamental Lacanian categories the triad imaginary symbolic real the object small a the opposition of drive and desire the split subject at work in horror fiction in detective thrillers in romances in the mass media's perception of ecological crisis and above all in Alfred Hitchcock's films the playfulness of Žižek's text however is entirely different from that associated with the deconstructive approach made famous by Derrida by clarifying what Lacan is saying as well as what he is not saying Žižek is uniquely able to distinguish Lacan from the poststructuralists who so often claim him

Did Somebody Say Ideology? 2007

no other marxist text has come close to achieving the fame and influence of the communist manifesto translated into over 100 languages this clarion call to the workers of the world radically shaped the events of the twentieth century but what relevance does it have for us today in this slim book slavoj zizek argues that while exploitation no longer occurs the way marx described it it has by no means disappeared on the contrary the profit once generated through the exploitation of workers has been transformed into rent appropriated through the privatization of the general intellect entrepreneurs like bill gates and mark zuckerberg have become extremely wealthy not because they are exploiting their workers but because they are appropriating the rent for allowing millions of people to participate in the new form of the general intellect that they own and control but even if marx's analysis can no longer be applied to our contemporary world of global capitalism without significant revision the fundamental problem with which he was concerned the problem of the commons in all its dimensions the commons of nature the cultural commons and the commons as the universal space of humanity from which no one should be excluded remains as relevant as ever this timely reflection on the enduring relevance of the communist manifesto will be of great value to everyone interested in the key questions of radical politics today

The Ticklish Subject 2000

the only thing of which one can be guilty is of having given ground relative to one's desire jacques lacan is psychoanalysis dead or are we to read frequent attacks on its theoretical mistakes and clinical frauds as a proof of its vitality slavoj zizek's passionate defence of lacan reasserts the ethical urgency of psychoanalysis traditionally psychoanalysis was expected to allow the patient to overcome the obstacles which prevented access to normal sexual enjoyment today however we are bombarded from all sides by different versions of the injunction enjoy lacan reminds us that psychoanalysis is the only discourse in which you are allowed not to enjoy since for lacan psychoanalysis itself is a procedure of reading each chapter uses a passage from lacan as a tool to interpret another text from philosophy art or popular ideology applying his ideas to hegel and hitchcock shakespeare and dostoevsky

The Responsible Object 2016

slavoj zizek has emerged as the pre eminent european cultural theorist of the last decade and has been described as the ultimate marxist lacanian cultural studies scholar his large and growing body of work has generated considerable controversy yet his texts are not structured as standard academic tomes in slavoj zizek a little piece of the real matthew sharpe undertakes the difficult task of drawing out an evolving argument from all of zizek's texts from 1989 to 2001 and reads them as the bearers of a single theoretical project providing an authoritative reliable clearly written and well structured account of zizek's demanding body of work from an exposition of zizek's social and philosophical critical theory

the book moves to a critical analysis of zizek s theoretical project and its political implications sharpe concludes by suggesting that zizek s work however raises as many questions as it answers questions both about zizek s theoretical system and to the wider new left in today s world

in the last decade interest in the writings of french philosopher simone weil 1909 1943 has surged weil is admired for her militant syndicalism her factory experience and participation in the french resistance but it is above all the eclectic and rich character of her work that has increasingly attracted scholarly attention weil reflected on subjects as diverse as quantum physics greek tragedy bankruptcy colonialism technology education and religious metaphysics but perhaps most interesting is the way that her work seems to defy any clear ideological labelling marxist anarchist liberal conservative and republican all seem to fall short in describing the complexity of weil s thinking adding to the interpretive difficulty is the fact that weil often expressed biting criticisms of most things political what this edited volume argues is that it is precisely weil s unclassifiable nature combined with her sharp and sometimes ambivalent criticisms of politics that make her work a most timely and fascinating object of study for contemporary political philosophy it proposes a two pronged approach to her thought first via a series of conversations set up between weil and key authors in modern and contemporary political theory e g sandel rawls ahmed agamben orwell and secondly via a close study of weil s reflections on various ideologies the goal of this book is not to position simone weil squarely within a single ideological tradition but rather to propose that her thought might allow us to critically engage with various ideologies in the history of political ideas

what do we know about hegel what do we know about marx what do we know about democracy and totalitarianism communism and psychoanalysis what do we know that isn t a platitude that we ve heard a thousand times or a self satisfied certainty through his brilliant reading of hegel slavoj zizek one of the most provocative and widely read thinkers of our time upends our traditional understanding dynamites every cliché and undermines every conviction in order to clear the ground for new ways of answering these questions when lacan described hegel as the most sublime hysteric he was referring to the way that

the hysteric asks questions because he experiences his own desire as if it were the other's desire in the dialectical process the question asked of the other is resolved through a reflexive turn in which the question begins to function as its own answer we had made hegel into the theorist of abstraction and reaction but by reading hegel with lacan zizek unveils a hegel of the concrete and of revolution his own and the one to come this early and dazzlingly original work by zizek offers a unique insight into the ideas which have since become hallmarks of his mature thought it will be of great interest to anyone interested in critical theory philosophy and contemporary social thought

liberals and conservatives proclaim the end of the american holiday from history now the easy games are over one should take sides Žižek argues this is precisely the temptation to be resisted in such moments of apparently clear choices the real alternatives are most hidden welcome to the desert of the real steps back complicating the choices imposed on us it proposes that global capitalism is fundamentalist and that america was complicit in the rise of muslim fundamentalism it points to our dreaming about the catastrophe in numerous disaster movies before it happened and explores the irony that the tragedy has been used to legitimize torture last but not least it analyzes the fiasco of the predominant leftist response to the events

a thousand page resurrection of hegel from the bestselling philosopher and critic who has been hailed as one of the world's best known public intellectuals new york review of books for the last two centuries western philosophy has developed in the shadow of hegel an influence each new thinker struggles to escape as a consequence hegel's absolute idealism has become the bogeyman of philosophy obscuring the fact that he is the defining philosopher of the historical transition to modernity a period with which our own times share startling similarities today as global capitalism comes apart at the seams we are entering a new period of transition in less than nothing the product of a career long focus on the part of its author slavoj Žižek argues it is imperative we not simply return to hegel but that we repeat and exceed his triumphs overcoming his limitations by being even more hegelian than the master himself such an approach not only enables Žižek to diagnose our present condition but also to engage in a critical

dialogue with key strands of contemporary thought heidegger badiou speculative realism quantum physics and cognitive sciences modernity will begin and end with hegel

Lacan and the Political 2002-09-11

in the ideology of conduct first published in 1987 scholars from various fields from the medieval period to the present day discuss literature in which the sole purpose is to instruct women in how to make themselves desirable this collection investigates how middle class writers who had long emulated the behaviour of the aristocracy began to criticise that behaviour by formulating an alternative object of desire they did so without appearing to breed political controversy because it seemed to concern only the female but writing for and about women in fact became a powerful instrument of hegemony as it introduced a whole new vocabulary for social relations induced certain forms of economic behaviour as desirable in men and women respectively and insured the reproduction of the nuclear family it is argued therefore that the literature of conduct not only recorded but also assisted the production of our contemporary gender based culture

Ideology, Power and Prehistory 1984-05-03

matthew h bowker offers a novel analysis of experience the vast and influential concept that has shaped western social theory and political practice for the past half millennium while it is difficult to find a branch of modern thought science industry or art that has not relied in some way on the notion of experience in defining its assumptions or aims no study has yet applied a politically conscious and psychologically sensitive critique to the construct of experience doing so reveals that most of the qualities that have been attributed to experience over the centuries particularly its unthinkability its correspondence with suffering and its occlusion of the self are part of unlikely fantasies or ideologies by analyzing a series of related cases including the experiential education movement the ascendancy of trauma theory the philosophy of the social contract and the psychological study of social isolation the book builds a convincing case that ideologies of experience are invoked not to keep us close to lived realities and things in themselves but rather to distort and destroy true knowledge of ourselves and others in spite of enduring admiration for those who may be called champions of experience such as michel de montaigne ralph waldo emerson and others treated throughout the work the ideologies of experience ultimately discourage individuals and groups from creating resisting and changing our experience urging us instead to embrace trauma failure deprivation and self abandonment

slavoj Žižek is one of the most interesting and important philosophers working today known chiefly for his theoretical explorations of popular culture and contemporary politics this book focuses on the generally neglected and often overshadowed philosophical core of Žižek's work an essential component in any true appreciation of this unique thinker's accomplishment his central concern Žižek has proclaimed is to use psychoanalysis especially the teachings of jacques lacan to redeploy the insights of late modern german philosophy in particular the thought of kant schelling and hegel by taking this avowal seriously adrian johnston finally clarifies the philosophical project underlying Žižek's efforts his book charts the interlinked ontology and theory of subjectivity constructed by Žižek at the intersection of german idealism and lacanian theory johnston also uses Žižek's combination of philosophy and psychoanalysis to address two perennial philosophical problems the relationship of mind and body and the nature of human freedom by bringing together the past two centuries of european philosophy

psychoanalytic metapsychology and cutting edge work in the natural sciences johnston develops a transcendental materialist theory of subjectivity in short an account of how more than material forms of subjectivity can emerge from a corporeal being his work shows how an engagement with Žižek s philosophy can produce compelling answers to today s most vexing and urgent questions as inherited from the history of ideas

louis althusser s renowned short text ideology and ideological state apparatuses radically transformed the concept of the subject the understanding of the state and even the very frameworks of cultural political and literary theory the text has influenced thinkers such as judith butler ernesto laclau and slavoj Žižek the piece is in fact an extract from a much longer book on the reproduction of capitalism until now unavailable in english its publication makes possible a reappraisal of seminal althusserian texts already available in english their place in althusser s oeuvre and the relevance of his ideas for contemporary theory on the reproduction of capitalism develops althusser s conception of historical materialism outlining the conditions of reproduction in capitalist society and the revolutionary struggle for its overthrow written in the afterglow of may 1968 the text addresses a question that continues to haunt us today in a society that proclaims its attachment to the ideals of liberty and equality why do we witness the ever renewed reproduction of relations of domination both a conceptually innovative text and a key theoretical tool for activists on the reproduction of capitalism is an essential addition to the corpus of the twentieth century left
