this book is non fiction and should be taken seriously contained within the authorized king james version of the bible and the hebrew and greek that it was translated from is a calendar to the end of time slightly out of sight to the non believer and the skeptic modern day events are recorded in the plain text of the bible in each chapter by the year the bible is a calendar of events and it is counting down in 2009 we entered into the last 22 years of time the mayan calendar was a fake or at least what we were told about it was it may have been a calendar that ended in 2012 but that is all it was people made up stories about what they thought it might mean and they were wrong the bible countdown calendar comes from the original  
2017-01-24 4/16 100 day tear off countdown calendar

book that governs our planet the source of all existence the bible this is not a guessing game the calendar is governed by numbers if you can do simple math and are able to read then you can search out these events for yourself this book teaches you how to search for these events in history yourself and contains an extra set of charts for you to cut out and use for your own studies i will lightly touch on the math to give you a glimpse to how it works psalms is the 19th book in the bible and covers the 1900 s psalms 1 is 1901 palms 2 1902 and so on you can continue to number your bible right on through to psalms 130 for the year 2030 what you do is look up an event that happened in history by the year on the internet or in a history book or maybe you remember when it happened next you look at the words in the chapter to see if it contains the event i have found many events in the book of psalms that prove this but it seemed a little vague i needed more proof next i simply went to the same number of chapter in the new testament that i was in the old testament from the book of psalms and numbered it for the same year the results were amazing sometimes the words that match the events are only written one time in the entire bible if you were to go one chapter to the left or to the right the story would not be there each chapter represents a year the events happen in order by year i am not just picking isolated chapters you could pick chapters using any book this is distinct order the bible cannot be changed if you added one chapter to the bible the calendar would be off that is why the book of revelation warns us not to add to or take away from this book it is a time piece a calendar to the end of time there is a third part to this but i do not want to give too much away at this point you will be amazed
