Landlord and Tenant Law 2017-09-16

this handbook consists of essays on contemporary issues in criminal law and their theoretical underpinnings some of the essays deal with the relationship between morality and criminalization others deal with criminalization in the context of specific crimes such as fraud blackmail and revenge pornography the contributors also address questions of responsible agency such as the effects of addiction or insanity and some deal with punishment its mode and severity and the justness of the state s imposition of it these chapters are authored by some of the most distinguished scholars in the fields of applied ethics criminal law and jurisprudence

The Palgrave Handbook of Applied Ethics and the Criminal Law 2019-12-02

what is justice is there a duty to obey a law even it is unjust this book tackles questions like these and explains some of the answers which legal theorists have given from ancient greece to the present day

Legal Theory 2007

this handbook examines the essential nature of the law within an educational context and asks why there is not greater preparation for this aspect of a teacher s role principals and teachers across the world now work in increasingly uncertain and challenging environments involving complex legislative frameworks with their roles and responsibilities constantly changing to meet these demands thus it is imperative that educators adapt and acquire new skills relating to child protection and criminal law on a daily basis teachers and practitioners are being challenged to critically examine and evaluate the legal rights and obligations of various stakeholders including students parents educators and administrators however if these skills are not developed the implications will be significant particularly so if principals are deterred from pursuing innovative education strategies due to potential litigation risks consequently the chapters will empower principals and teachers in the management of these concerns this wide ranging handbook including case studies from around the world will be of interest and value to both scholars of education law and practitioners

The Palgrave Handbook of Education Law for Schools 2018-06-30

powers in addition new key notes are included at the start of each chapter to identify important themes

Constitutional and Administrative Law 2005

a major new text on medical law from an author team with both legal and medical expertise legal principles are set firmly in a practical context and the text is supported throughout with real life scenarios to illustrate key points

Medical Law 2011

freedom of thought is one of the great and venerable notions of western thought often celebrated in philosophical texts and described as a crucial right in american european and international law and in that of other jurisdictions what it means more precisely is however anything but clear surprisingly little writing has been devoted to it in the past perhaps there has been little need for such elaboration as one supreme court justice stressed freedom of thought is absolute of its own nature because even the most tyrannical government is powerless to control the inward workings of the mind but the rise of brain scanning cognition enhancement and other emerging technologies make this question a more pressing one this volume provides an interdisciplinary exploration of how freedom of thought might function as an ethical principle and as a constitutional or human right it draws on philosophy legal analysis history and reflections on neuroscience and neurotechnology to explore what respect for freedom of thought or an individual's cognitive liberty or autonomy requires

The Law and Ethics of Freedom of Thought, Volume 1 2021-12-06

a thorough and accessible introduction to the basic legal principles of the uk constitution this ninth edition has been fully updated to reflect latest developments

Constitutional and Administrative Law 2013

this volume explores the continuous line from informal and unrecorded practices all the way up to illegal and criminal practices performed and reproduced by both individuals and organisations the authors classify them as alternative subversive forms of governance performed by marginal and often invisible peripheral actors the volume studies how the informal and the extra legal unfold transnationally and in particular how and why they have been and are being progressively criminalized and integrated into the construction of global and local dangerhoods how the above mentioned phenomena are embedded into a post liberal security order and whether they shape new states of exception and generate moral panic whose ultimate function is regulatory disciplinary and one of crafting practices of political ordering

Governance Beyond the Law 2019-03-29

this book the first of a two volume study provides an historical account of complaints against metropolitan police officers between formation of the force in 1829 and codification of remedies for misconduct under the police act 1964 a complainant centred standpoint is developed to counteract the marginalization of the interests of victims which is held to demonstrate that the drive for effective and efficient law enforcement has overshadowed the public interest in holding officers to account for misconduct after officer accountability before the criminal courts diminished in the nineteenth century missed opportunities to reform complaints procedures following commissions of inquiry in 1906 08 1928 and 1960 62 are discussed the second volume of the study combating impunity complaints against metropolitan police 1964 2021 will examine the part played by complainants and civil society organisations in combating police impunity in the citizen oversight era

On the Wrong Side of The Law 2020-08-25

why do some rules have the status of law while others do not is law simply a matter of rules anyway what is justice is there a duty to obey a law even if it is unjust should the law concern itself with the activities of consenting adults in private this work asks questions such as these and explains some of the answers which legal theorists have given from ancient greece to the present day written in a readable style this book aims to make intrinsically difficult material accessible and interesting

Legal Method 1999

this book explores the emergence of an ius puniendi outside state criminal law and beyond international criminal law the study connects with the reflections that have been made for some years in global law studies showing how this trend also has a clear manifestation in the field of criminal law the analysis begins by mapping out the different manifestations of this new global criminal regulation this includes very diverse areas ranging from judicial cooperation to the problems involved in the application of criminal sanctions in failed states or investigations carried out on the internet new sanctioning systems are also studied such as the debarment regime of the world bank or the sanctions in the hands of international sports federations it is a question of discovering all criminal law understood in a broad sense that lies outside the confines of the state adan nieto martin is full profesor of criminal law university of castilla la mancha spain

Global Criminal Law 2021

this book brings together a range of theoretical perspectives to consider fundamental questions of health law and the place of the body within it health and more recently health law has long been animated by discussions of

particular bodies whether they are disordered diseased or disabled but each of these classificatory regimes claim some knowledge about the body this edited collection aims to uncover and challenge the fundamental assumptions that underpin medico legal knowledge claims about such bodies this exploration is achieved through a mix of perspectives but many contributors look towards embodiment as a perspective that understands bodies to be shaped by their institutional contexts much of this work alerts us to the idea that medical practitioners not only respond to healthcare issues but also create them through their own understandings of normality and fixing bodies as a result cannot be understood outside of or as separate to their medical and legal contexts this compelling book pushes the possibility of new directions in health care and health justice chapter 5 is available open access under a creative commons attribution 4 0 international license via link [springer.com](https://www.springer.com)

A Jurisprudence of the Body 2020-08-05

a study of the impact of business on legal practice exploring the attitudes and aspirations of lawyers and linking the findings to questions of the effective management of legal services included is a comparative analysis of trends in the uk and australia

Lawyers in Business 1989-06-18

this edited volume presents a collection of stories that experiment with different ways of looking at international law by using different literary lenses namely storytelling the novel the drama the collage the self portrait and the museum the authors shed light on elements of international law that usually remain unseen or unheard and expose the limits of what international law can do we inquire into who the storytellers of international law are the stages on which they tell their stories and who are absent in these tales we present it as a collection a set of different essays that more or less deal with the same subject matter alternatively we would like to call it a potpourri of stories since the diversity of topics and approaches is eclectic and unconventional by placing multiple perspectives alongside each other we aim to compare and contrast to allow for second thoughts and to rediscover in doing so we engage with the ambiguities of international law s characters and spaces and with the worldviews they reflect and worlds they create

International Law's Collected Stories 2020-12-19

law and markets examines the interaction between legal rules market forces and prices it emphasises the economic effects of legal rules on individual incentives in both market and non market settings and draws on cases and materials from a wide variety of legal jurisdictions to illustrate economic principles

Law of the European Union 2007

america s legal system harbors serious widespread injustices many defendants are sent to prison for nonviolent offenses including many victimless crimes convicts often serve draconian sentences in crowded prisons rife with abuse almost all defendants are convicted without trial because prosecutors threaten defendants with drastically higher sentences if they request a trial most americans are terrified of encountering any kind of legal trouble knowing that both civil and criminal courts are extremely slow unreliable and expensive to use this book explores the largest injustices in the legal system and what can be done about them besides proposing institutional reforms the author argues that prosecutors judges lawyers and jury members ought to place justice before the law for example by refusing to enforce unjust laws or impose unjust sentences issues addressed include the philosophical basis for judgments about rights and justice the problems of overcriminalization and mass incarceration abuse of power by police and prosecutors the injustice of plea bargaining the appropriateness of jury nullification the authority of the law or the lack thereof justice before the law is essential reading for everyone interested in legal ethics the rule of law and criminal justice it is also ideal for students of legal philosophy

Law and Markets 2011-12-08

nobody s law shows how people who are disappointed disenchanted and outraged about the justice system gradually move away from law using detailed case studies and combining different theoretical perspectives this book explores the legal consciousness of ordinary people businessmen and street level bureaucrats in the netherlands the empirical research in this study tells an original and alternative narrative about the role of law in everyday life while previous studies emphasize the law s hegemony and argue that it s all over hertogh shows that legal proliferation makes it harder for people to know and subsequently identify with the law as a result official law has become increasingly remote and irrelevant to many people the central finding presented in this highly topical text is that these developments signal a process of legal alienation a gradual and mundane process with potentially serious consequences for the legitimacy of law a timely and original study this book will be of particular interest to scholars in the fields of law and society socio legal studies and legal theory

Justice before the Law 2021-09-06

the new edition of this popular textbook offers an in depth analysis of the legal framework in which companies operate updated with the latest developments in law and case law it goes beyond black letter analysis to explain important concepts such as corporate governance and multinational corporations in an international context logically structured the writers clear writing style help students understand this complex area of the law ideal for students taking a module in company law the book includes learning resources throughout such as key terms and concepts helpful summaries for each chapter case notes and suggestions for further reading informative end
