Modern Principles, Practices, and Algorithms for Cloud Security 2020-10 we analyze how regulatory constraints on household leverage in the form of loan to income and loan to value limits affect residential mortgage credit and house prices as well as other asset classes not directly targeted by the limits supervisory loan level data suggest that mortgage credit is reallocated from low to high income borrowers and from urban to rural counties this reallocation weakens the feedback loop between credit and house prices and slows down house price growth in hot housing markets consistent with constrained lenders adjusting their portfolio choice more affected banks drive this reallocation and substitute their risk taking into holdings of securities and corporate credit

UGC-NET 2014-02-26 contrary to the apocalyptic pronouncements of paper media's imminent demise in the digital age there has been a veritable surge of creative reimaginations of books as bearers of the literary from typographic experiments mark z danielewski's house of leaves steven hall's the raw shark texts to accordion books anne carson's nox from cut ups jonathan safran foer's tree of codes to collages graham rawle's woman's world from erasures mary ruefle's a little white shadow to mixups simon morris's the interpretations of dreams print literature has gone through anything but a slow inevitable death in fact it has reinvented itself materially starting from this idea of media plurality book presence in a digital age explores the resilience of print literatures book art and zines in the late age of print from a contemporary perspective while incorporating longer term views on media archeology and media change even as it focuses on the materiality of books and literary writing in the present book presence also takes into consideration earlier 20th century moments of media transition developing the concepts of presence and materiality as analytical tools to perform literary criticism in a digital age bringing together leading scholars artists and publishers book presence in a digital age offers a variety of perspectives on the past present and future of the book as medium the complex relationship of materiality to virtuality and of the analog to the digital

SOCRATES 2022-10-14 sustainability is a topic of great interest today particularly for the Gulf Cooperation Council GCC countries which

have witnessed very rapid economic and demographic growth over the past decade the observed growth has led to unsustainable consumption patterns of vital resources such as water energy and food highlighting the need for an urgent shift towards green growth and sustainable development strategies sustainability in the gulf covers the region s contemporary development challenges through the lens of the un s sustainable development goals sdgs which place sustainability at the centre of the solution to the current environmental economic and social imbalances facing gcc countries the book presents multiple analyses of gulf specific sustainability topics examining the current status challenges and opportunities as well as identifying key lessons learned innovative and practical policy recommendations are provided as well as new conceptual angles to the evolving academic debates on the post oil era in the gulf through chapters covering sector related studies as well as the socio economic dimensions of the sustainability paradigm this volume offers valuable insights into current research efforts made by the gcc states proposing a way forward based on lessons learned this is a valuable resource for students academics and researchers in the areas of environmental studies political economy and economics of the gcc states

Handbook of Recycling 2019-01-30 as traced by roger d sell literary communication is a process of community making as long as literary authors and those responding to them respect each other s human autonomy literature flourishes as an enjoyable though often challenging mode of interaction that is truly dialogical in spirit this gives rise to author respondent communities whose members represent existential commonalities blended together with historical differences these heterogeneous literary communities have a larger social significance in that they have long served as counterweights to the hegemonic tendencies of modernity and more recently to postmodernity s well intentioned but restrictive politics of identity in post postmodern times their ethos is increasingly one of pleasurable egalitarianism the despondent anti hedonism of the twentieth century intelligentsia can now seem rather dated some of the papers selected for this volume develop sell s ideas in mainly theoretical terms but most of them offer detailed criticism of particular anglophone writers ranging from shakespeare ben jonson and other poets and dramatists of the early modern period through wordsworth and coleridge to dickens pinter and rushdie
