all 46 of the original volumes are included in this one volume there are two linked indexes in this volume a main index at the front of this volume that will take you to the beginning each of the books of the bible and another index at the beginning of each book there is a linked scripture index leading to the particular subject john calvin is considered as the first truly great scholar of the reformation indeed he has even been seen by some to be one of history s greatest christian biblical scholars he had an incredible command of the bible and his interpretations were not based on just one or two passages he combined pastoral insight with solid exegesis to form a strong interpretation of the scriptures however some of his views on the prophetic interpretation such as in the book of daniel are controversial he put forth a purist view and believed that the prophecies in the book of daniel applied solely to the history between the time of the prophet daniel 530 bc and jesus first coming 30 ad nevertheless john calvin was a force to be reckoned with and is considered to have a unique insight which enabled him to find the true meaning of the bible dutch theologian jacobus arminius after whom the anti calvinistic movement arminianism was named states that next to the study of the scriptures which i earnestly inculcate i exhort my pupils to peruse calvin s commentaries which i extol in loftier terms than helmich himself a dutch divine 1551 1608 for i affirm that he excels beyond comparison in the interpretation of scripture and that his commentaries ought to be more highly valued than all that is handed down to us by the library of the fathers so that i acknowledge him to have possessed above most others or rather above all other men what may be called an eminent spirit of prophecy his institutes ought to be studied after the heidelberg catechism as containing a fuller explanation but with discrimination like the writings of all men during his life calvin produced commentaries on 48 books of the bible a total of 45 published volumes he intended to put out a complete commentary of the bible but his death prevented this the books of judges ruth 1 2 samuel 1 2 kings 1 2 chronicles ezra nehemiah esther job proverbs ecclesiastes song of solomon 2 3 john and revelation were unfortunately not completed he did however write a two volume commentary of the harmony of the gospels matthew mark and luke as well as a separate commentary for the gospel of john likewise he also wrote a two volume series on the harmony of the law exodus leviticus numbers and deuteronomy calvin s own exegesis of the original text allowed him to bring out a unique and pleasing interpretation he begins each section of scripture with his own translation of the text and then further expounds upon it point by point making it an excellent resource for ministers and teachers alike after more than 400 years calvin s commentaries are still a relevant and essential tool for christians

exploring kierkegaard s complex use of the bible the essays in this volume use source critical research and tools ranging from literary criticism to theology and biblical studies to situate kierkegaard s appropriation of the biblical material in his cultural and intellectual context the contributors seek to identify the possible sources that may have influenced

kierkegaard's understanding and employment of scripture and to describe the debates about the bible that may have shaped perhaps indirectly his attitudes toward scripture they also pay close attention to kierkegaard's actual hermeneutic practice analyzing the implicit interpretive moves that he makes as well as his more explicit statements about the significance of various biblical passages this close reading of kierkegaard's texts elucidates the unique and sometimes odd features of his frequent appeals to scripture this volume in the series devotes one tome to the old testament and a second tome to the new testament as with the old testament kierkegaard was aware of new developments in new testament scholarship and troubled by them because these scholarly projects generated alternative understandings of the significance of jesus they impinged directly on his own work it was crucial for kierkegaard that jesus is presented as both the enactment of god's reconciliation with humanity and as the prototype for humanity to emulate consequently kierkegaard had to struggle with the proper way to explicate persuasively the significance of jesus in a situation of decreasing academic consensus about jesus he also had to contend with contested interpretations of james and paul two biblical authors vital for his work as a result kierkegaard ruminated about the proper way to appropriate the new testament and used material from it carefully and deliberately the authors in the present new testament tome seek to clarify different dimensions of kierkegaard's interpretive theory and practice as he sought to avoid the twin pitfalls of academic skepticism and passionless biblical traditionalism

this book examines the current law on the employment status of ministers of religion together with religious workers and volunteers and suggests reforms in this area of the law to meet the need for ministers to be given a degree of employment protection it also considers the constant theme in christian history that the clergy should not be subject to the ordinary courts and asks whether this is justified with the growth of areas such as employment law the work questions whether it is possible to arrive at a satisfactory definition of who is a minister of religion and along with this who would be the employer of the minister if there was a contract of employment taking a comparative perspective it evaluates the case law on the employment status of christian and non christian clergy and assesses whether this shows any coherent theme or line of development the work also considers the issue of ministerial employment status against the background of the autonomy of churches and other religious bodies from the state together with their ecclesiology the book will be of interest to academics and researchers working in the areas of law and religion employment law and religious studies together with both legal practitioners and human resources practitioners in these areas

faroeese and partially in arabic this volume includes a modern bible translation with notes explaining the verses that mormons and jws love to quote out of context along with notes on other verses they hate to look at because the plain reading of scripture proves their interpretations wrong the tob bible version used here renders the divine name as jehovah where the hebrew name for god the tetragrammaton occurs in the original manuscripts which is especially useful in responding to both mormons and jehovah s witnesses a comparison with the jw new world translation exposes the presumptuousness of jw translators who inappropriately added jehovah where it does not appear in the original manuscripts such as at romans 14 8 for example moreover the appearance of the expression jehovah god throughout the old testament disproves polytheistic mormon claims that the name jehovah and the title god hebrew elohim refer to two different gods in their pantheon see the footnotes at genesis 2 4 and deuteronomy 6 4 mormons and jehovah s witnesses are quite different theologically but quite similar in a number of other ways theologically mormons view the father son and holy ghost as three different gods believe that god the father was once a man and believe that their church members will someday become gods too while jws believe that the father is god alone the son is merely the first angel god created and the holy spirit which they do not capitalize is neither god nor a person but just a force that god uses to get things done however the two sects are very similar in a number of ways both view theirs as the only true church the restoration of true christianity and all other churches as apostate false religions both originated in the western new york pennsylvania area of america during the 1800s both send members door to door recruiting new members and spreading their message to your doorstep both have produced their own bible translations with key verses modified or added to fit their unique teachings both give lip service to the bible but actually put other publications above the bible as their guide to belief and practice and most seriously both put members into an old testament style supposed relationship with god through an organizational hierarchy rather than a new testament style personal relationship with god through the risen christ both sects usurp the role of jesus as lord savior and mediator by putting their organizational hierarchy in that role instead requiring obedience to the organization so it becomes their lord making salvation dependent upon the organization so it becomes their savior and placing the organization in the position of mediator acting as god s spokesman or mouthpiece on earth today this volume will help you contend earnestly for the faith which was once for all delivered to the saints jude 1 3 tob
