# The Principles of Modern Company Law

1954

gower and davies is the clearest and most reliable text available to cover the increasingly complex subject of company law students as well as those involved in company law on a day to day basis can turn to gower and davies secure in the knowledge that it will be an interesting thought provoking and above all understandable exposition of both law and practice

## Gower and Davies' Principles of Modern Company Law

2012

this book adopts a historical perspective to highlight and bring back into focus the key features of the modern company a central argument in the book is that legal personhood attaching to an entity containing a corporate fund seeded by shareholders is a direct and inevitable consequence of limited liability and the company's status as a separate legal entity from its shareholders management by a board subject to legal duties to the company as an entity that can exist in perpetuity facilitates a long term perspective by the board that can accommodate both shareholder and stakeholder interests these defining characteristics differentiate the modern company from other business forms the making of the modern company applies a 21st century lens to the corporation through its history to identify turning points in its development it sets out how key features emerged in the course of two separate developmental cycles in english corporate law first with the english east india company in the 17th century and then with general incorporation statutes in the 2nd half of the 19th century the book's historical perspective highlights that the key features are part of the secret sauce of modern companies each cycle coincided with unparalleled periods of economic success associated with corporate activity this book will be of interest to corporate law and governance academics theorists and practitioners those who study the company from related disciplines and anyone who questions why uncertainty still exists about the structure of a legal form that has been described as amongst mankind's greatest inventions

## The Making of the Modern Company

gowers principles of modern company law  
law

the insight that organisations or firms are a social phenomenon outside of the law and that these are autonomous actors in their own right they are more than the sum of the contributions of their participants and they act independently of the views and interests of their participants this occurs because human beings change their behaviour when they act as members of a group or an organisation in a group we tend to develop and conform to a shared standard and when we act in organisations habits routines processes and procedures form and a culture emerges these take on a life of their own affecting the behaviour of the participants participants can affect organisational behaviour but this takes time and effort company law finds this phenomenon and supplies it with a structure supporting autonomous action by organisations the real entity theory advanced in this book explains company law as it stands at a positive level legal personality overcomes the problems that organisations are social rather than brute facts and that there is no unique physical manifestation permanently associated with an organisation the corporate constitution is not a contract it is best characterised as an instrument adopted on a statutory basis through private action shareholders cannot limit the capacity of companies or the authority of the board to bind the company in contract and companies are liable in tort and crime the statute creates roles for shareholders directors a company secretary and auditors and so facilitates a process leading to organisational action the law also integrates the interests of creditors and stakeholders

## **Critical Company Law**

2015-08-11

the history of incorporations legislation and its administration is intimately tied to changes in social beliefs in respect to the role and purpose of the corporation by studying the evolution of the corporate form in britain and a number of its colonial possessions the book illuminates debates on key concepts including the meanings of laissez faire freedom of commerce the notion of corporate responsibility and the role of the state in the regulation of business in doing so a social history of company law advances our understanding of the shape effectiveness and deficiencies of modern regulatory regimes and will be of much interest to a wide circle of scholars

## **Modern Company Law for a Competitive South African Economy**

2010

modern irish company law is the most up to date guide available to cover all aspects of contemporary irish company law

written from a practical business perspective it offers a clear and authoritative explanation of the complexities in the law governing companies in ireland the new edition has been updated to tackle recent developments in company law in ireland in particular the company law enforcement act 2001 and the creation of the office of director of corporate enforcement represent the most radical action ever taken by any irish government to reform company law enforcement

## **Understanding Company Law**

2017-07-06

how is it that corporations are able to behave irresponsibly criminally and undemocratically wealth by stealth is a scathing introduction to the operations of the modern corporation written by a corporate lawyer many writers point to the growth of undemocratic corporate power glasbeek takes these observations further and outlines clearly how corporations become so powerful he also shows how they are able to act without regard to the behaviour and laws governing citizens and other groups glasbeek is known by generations of students for his brilliant funny lectures at osgoode hall law school with wealth by stealth his informative critique of corporate behaviour becomes available and accessible to all how is it the corporation makes them do it

## **Gower's Principles of Modern Company Law**

1979

there has been a substantial growth in the application of company law partly due to the prevailing economic and general business environment this book examines issues such as company securities capital and insider dealing

## ***Understanding Company Law***

2017-07-06

this book examines the legal duties of directors of public companies in the light of the stakeholder approach to the firm it considers the theory that directors are not simply agents of corporate shareholders but have a duty to take into consideration and where appropriate balance the interests of several constituencies each of which has a legitimate stake in
