Curious Night for a Double Eclipse 2011 perfect for fans of i spy where s waldo and other interactive books here is an oversized paperback bindup of two favorite books that will provide hours of endless seek and find fun go on the ultimate seek and find adventure in this reimagined dual edition of look a book and look another book created by award winning artist bob staae buoyant rhyming text invites readers into each themed scene to find over 250 items hidden within the elaborate detailed spreads from underwater worlds to haunted houses and tree top towns there are endless things for readers to discover fourteen adventures will inspire readers to closely observe and see each world anew this generously sized paperback edition is formatted as a flip book with two covers when you get to the end of the first book turn the book over for double the fun

A Death for a Double 1992-09-22 green building principles and practices in residential construction provides a current comprehensive guide to this exciting emerging field from core concepts to innovative applications of cutting edge technology and the latest industry trends this text offers an in depth introduction to the construction of green homes unlike many texts that adopt a product oriented approach this book emphasizes the crucial planning processes and execution methods necessary for effective environmentally sound construction this text demonstrates that earth friendly products and energy efficient materials take planning in order to make a building truly green this visionary text helps students and professionals develop the knowledge and skills to think green from start to finish empowering and inspiring them to build truly sustainable homes important notice media content referenced within the product description or the product text may not be available in the ebook version

Look! a Double Book! 2022-05-10 an analytical study of a flat condenser radiator with a double fin tube geometry closed sandwich with variable tube side wall thickness was performed for a rankine space power electric generating system the analysis of the double fin radiator included consideration of tube and header pressure drops meteoroid protection for the tubes and headers along with a detailed presentation of the heat rejection analysis and total weight characteristics the double fin tube radiator is compared to a conventional central fin tube configuration on a heat rejection to weight basis for a four panel radiator configuration both fin and tube geometries are compared on the basis of the same power level working fluid temperature tube and header pressure drop radiator material and meteoroid protection criteria a beryllium radiator for a 1 megawatt system and a columbium alloy radiator for a 500 kilowatt system both at a radiating temperature of 1700 r were chosen for the weight and geometry comparison the conclusion reached indicates a substantial weight savings can be realized with the double fin tube arrangement if the tube side wall thickness can be reduced as a result of a possible meteoroid bumper effect of the enclosing fins weight reductions compared to the central fin tube geometry of up to 32 to 39 percent were shown to be possible for the maximum reduction in side wall thickness in the two examples considered this result further substantiated the preliminary conclusions given in an earlier reference that compared the double and central fin tube configurations neglecting the effects of headers pressure drops tube wall temperature drop and powerplant thermodynamic cycle considerations

Business Traveler International 1996 the follow up to the bestselling phenomenon the daring book for girls an even more daring guide to everything from making a raft to learning how to play football to the art of the japanese tea ceremony in response to the resounding success of the daring book for girls comes a second volume with all original material that promises to be full of even more daring adventure than the first girls will learn how to surf horseback riding tips april fools day history and pranks how to make a labyrinth how to sing all about cowgirls and how to organize a croquet tournament just as packed with creative and exciting material as the original but double the fun the double daring book for girls is an adventure guidebook of stories activities facts and games for daring girls everywhere

Green Building: Principles and Practices in Residential Construction 2012-01-03 we define a double construction for a certain class of lie 2 algebras which provides a pseudofunctor to the 2 category of pointed manin pairs we show that this pseudofunctor is essentially surjective and we expect that it is an equivalence

ASMI 1989 in their bestselling mathematical statistics with applications premiere authors dennis wackerly william mendenhall and richard l scheaffer present a solid foundation in statistical theory while conveying the relevance and importance of the theory in solving practical problems in the real world the authors use of practical applications and excellent exercises helps students discover the nature of statistics and understand its

essential role in scientific research important notice media content referenced within the product description or the product text may not be available in the ebook version

Analysis of a Double Fin-tube Flat Condenser-radiator and Comparison with a Central Fin-tube Radiator 1964 several previous advanced study institutes have concentrated on the techniques of light scattering while the biological applications were not fully explored many of the techniques are now standardised and are being applied to a wide range of biologically significant problems both in vivo and in vitro while laser light scattering methods are superior to conventional methods there was a general reluctance among biologists to adopt them because of the complexity of the physical techniques and the accompanying mathematical analysis consequently valuable opportunities for advancing the understanding of the biological problems were being missed advances in the design and commercial availability of standard light scattering instruments and the availability of standard computer programs made the more widespread use of these techniques a practical reality for the biologist while biologists are unable to cope with the complexities of the physical techniques physicists are generally unaware of the nature and scale of the biological problems the meeting at maratea was an attempt to bring these two groups together and provide an impetus for the application of laser light scattering techniques to biology this volume differs from the three previous proceedings on laser light scattering in the nato asi series b3 b23 b73 in that it has been published in the life sciences series rather than the physics series reflecting the shift in emphasis from the development of a new technique to its application in biology

The Double-Daring Book for Girls 2009-04-14 the 4th edition of viral hepatitis covers comprehensively the entire complex field of infections caused by all of the different hepatitis viruses which affect many millions of people throughout the world with considerable morbidity and mortality howard thomas and arie zuckerman are joined by anna lok from the usa and stephen locarnini from australia as editors they have recruited leading researchers and physicians from many countries who have produced an authoritative account of current knowledge and research on this important infection including new insights into immune response to hbv and hcv the result is a comprehensive account on all aspects of viral hepatitis including rapid advances in the diagnosis management treatment and prevention of a complex infection which in the case of hepatitis b c and d may lead to severe complications including chronic hepatitis cirrhosis and hepatocellular carcinoma the latest edition of viral hepatitis offers an essential resource of current information for hepatologists gastroenterologists infectious diseases specialists and other clinicians researchers public health physicians and national and international health authorities

Bulletin of the Permanent International Association of Navigation Congresses 1971 from the 1 new york times bestselling author of the dangerous book for boys comes the long awaited sequel another action packed adventure guide featuring full color illustrations perfect for dads grads and boys of all ages the double dangerous book for boys is a treasure trove of the essential activities and skills that have defined generations of boyhoods from building a treehouse to fishing to finding true north designed with the same nostalgic look and feel as the first book this companion volume includes more than 70 new chapters and important skills fascinating historical information and captivating stories including how to pick a padlock making a flying machine tying a windsor knot advice from fighting men questions about the law chess openings making perfume maps of historic empires british ottoman genghis persian medes babylonian alexander great speeches forgotten explorers how to wire a plug and make a lamp writing a thank you letter polishing shoes parents looking to reduce screen time and rediscover the great outdoors can use this book to fill weekend afternoons and summer days with wonder excitement adventure and fun learn to build go carts and electromagnets identify insects and spiders and fly the world's best paper airplanes this charming and practical guide packed with hundreds of full color charts maps diagrams and illustrations will ignite the imagination and stimulate curiosity and provide grandfathers fathers sons and brothers the opportunity to deepen their bonds conn iggulden has at last put together a second wonderful collection that is the essence of boyhood

A Double Construction for Pointed Lie 2-algebras 2013 replaces material heretofore published in the postal laws and regulations the post office manual the postal guide and the book of instructions of the postal transportation service

32nd Aerospace Sciences Meeting & Exhibit: 94-0610 - 94-0639 1994 a double scotch tells the intertwined success stories of chivas regal and the

glenlivet two scotch whisky brands recognized the world over for their unparalleled quality founded by scottish grocers from aberdeen chivas regal stands as the world s most popular prestige blended scotch first distilled by a pistol packing highlander the glenlivet is today the top selling single malt scotch in america f paul pacult explores these two iconic spirits and tells the remarkable story of the two families who endured numerous hardships to build their brands a business book that goes down easy a double scotch tells the story of the world s favorite whiskies and the story of the nation and families that made them so

The Cyclopædia; Or, Universal Dictionary of Arts, Sciences, and Literature. By Abraham Rees, ... with the Assistance of Eminent Professional Gentlemen. Illustrated with Numerous Engravings, by the Most Distinguished Artists. In Thirty-nine Volumes. Vol. 1 [- 39] 1819 when the apostle paul proclaimed the new christian mystery to the factious congregation at corinth it was clear that this eucharist was meant to replace the pagan mystery that had been celebrated for over a millennium just a short distance away at the sanctuary of eleusis christianity evolved within the context of judaic and hellenistic healing cults magic shamanism and mystery initiations all four of these inevitably imply a sacred ethnopharmacology with traditions going back to earlier ages of the ancient world the essays in the apples of apollo edited by ruck staples and heinrich attempt to uncover the original food of the sacramental communion after a preliminary review of the rites and etiquette of the sacramental wine of the god dionysos whom christ would replace as sacrificial offering the myth of ixion who is named for the semi parasitic plant called mistletoe is linked to apollo s role in demanding human victims and the persistence of such rites in the druidic solstice sacrifice of the wicker man behind the symbolism of the mistletoe and other psychoactive plants lurks the soma of the vedic tradition and its botanical original the fly agaric mushroom rather than being marginal to classical culture the fly agaric and the array of metaphors its amazing transmutations suggest is central to the myths of the greek heroes and in particular to the first of them all the hero perseus who reformed the religion practiced at the ancient city of mycenae

Introduction to Competitive Bidding 1984 electron correlations in molecules and solids bridges the gap between quantum chemistry and solid state theory in the first half of the text new concepts are developed for treating many body and correlation effects combining standard quantum chemical methods with projection techniques greens function methods and monte carlo techniques the second half deals with applications of the theory to molecules semiconductors transition metals heavy fermion systems and the new high t subscript c superconducting materials back cover

Official Steamship Guide International 1996 interpreting a chinese pastors intersubjective experience of shi engaging yzhun and pauline texts the aim of this thesis is to unfold the multilayered intersubjective experience of the author himself a chinese pastor the author postulates himself as the subject in whom the said experience was evident so that it can be analyzed and interpreted the author argues for a cultural linguistic experience of sh as the locus at which the intersubjective experience takes place he then shows that such experience embodies a chinese christians two texts inheritance and argues that it is through unfolding or revealing of such experience that

Look to Libby's for a Double Cross 1949* this book starts from three observations first the use of humour is a complex puzzling and idiosyncratically human form of behaviour and hence is of scientific interest second there is currently no theory of how humour works third one useful step towards a theory of humour is to analyze humorous items in precise detail in order to understand their mechanisms the author begins by considering how to study jokes rigorously the assumptions to make the guidelines to follow and the pitfalls to avoid a critique of other work on humour is also provided this introduces some important concepts and also demonstrates the lack of agreement about what a theory of humour should look like the language devices used in various jokes such as puns or humour based on misinterpretation are analysed in detail the central part of the book develops and demonstrates proposals for how best to analyze the workings of simple jokes finally the author makes some general suggestions about the language devices that seem to be central to the construction of jokes the linguistic analysis of jokes will be invaluable for researchers and advanced students of humour research linguistics and cognitive science

Van Nostrand's Eclectic Engineering Magazine 1876 the devil s double is the first of 3 autobiographical books chronicling latif yahia s incredible life story it vividly describes how latif was forced to become uday hussein s fidai body double and gives a unique insight into the extreme extravagance and cruelty of the saddam regime latif survived assassination attempts and witnessed uday s psychotic temper rapes orgy parties

torture atrocities and sadistic murders the book has recently been made into a highly acclaimed movie the black hole gives a fascinating account of what happened to latif in europe after he escaped from iraq how he was treated by western governments and the cia how uday sought revenge on latif and vice versa how he was offered a british passport by saudis to murder a dissident and how they beheaded latif s saudi princess lover how latif made and lost a fortune how he strived in vain for a peaceful life and survived 4 more assassination attempts forty shades of conspiracy brings latif s story right up to date by detailing his time in ireland his run ins with drug dealers corrupt irish garda officers and irish politicians who continually denied him irish citizenship his despair as a beggar on the streets and the happiness he found after he met the love of his life his reaction to uday and saddam s deaths and his opinion on the current political situation in iraq all makes fascinating reading book description in 1987 latif yahia was taken to saddam s headquarters to meet uday saddam s eldest son and told that a great honour had been bestowed upon him that because of the great likeness between them he had been chosen to be uday s double for many iraqis it would have been the highlight of their lives but for latif a peace loving man who did not agree with saddam s brutal regime it was not he refused following a week of torture and realising he would be killed if he continued to refuse latif was forced to accept the role after a gruesome training programme during which he was made to watch over thirty films of torture hours of tapes of uday and undertake a final remodelling of his appearance latif was deemed ready but it was only after the final test a meeting with saddam himself that latif made his first public appearance and so began his life as uday s double a life on the perimeter of the inner circle of saddam s eldest son a witness to the horror of his insane life of debauchery excess and brutality and an experience for which he almost paid with his life on more than one occasion
