[College Biology Multiple Choice Questions and Answers \(MCQs\)](#)

CPC Exam Questions (300 Questions with Full Answer Key and Rationale) 2018-02-27

the cpc exam is comprised of 150 multiple choice questions the test takes five hours and 40 minutes to complete making it fairly rigorous there are two breaks in the middle of the test the cpc exam costs 300 to take but only 260 if the test taker is a member of the aapc annual dues are 125 for individuals and 70 for students the cpc exam thoroughly tests a coder's grasp of the entire coding process from medical terminology to code sets and beyond per the aapc's website the cpc exam covers 24 subject areas including anesthesia radiology and medicine you should recognize a number of these like evaluation and management or radiology as sections of the cpt code manual others like anatomy and physiology are parts of the coder's everyday skill set you should note that the questions on the exam are not divided or identified by the topic they are related to that is questions on the cpc exam will test you on all of the above 24 fields of medical coding but they won't outright say this is an anesthesia question instead they'll just ask you about anesthesia or surgery or human anatomy during the test you'll be presented with a number of test cases pertaining to the practice of coding these test case questions will present you with a condensed medical report and ask you to select the correct set of codes from the answers below for instance a test case question might read sarah a 45 year old patient visits the doctor and presents symptoms including a sore throat swollen lymph nodes and a fever after performing a rapid strep test the doctor confirms a diagnosis of streptococcal sore throat the doctor prescribes an amoxicillin as an antibiotic which of the following are the correct codes for this diagnosis procedure and prescription there are also general knowledge questions like which types of joints are synovial that don't have an attached test case that question's related to the musculoskeletal system but the test won't come right out and say so you'll have to rely on your knowledge of code sets medical terminology best practices and the coding process in general to pass individuals who earn a score of 70 percent or better 105 correct questions will pass the cpc exam if you fail your first test you are allowed one free retake getting certified once you pass the cpc exam you are not officially certified by the aapc until you fulfill a few other criteria in order to complete a cpc certification you must become a member of the aapc certification is also limited to coders with two years of professional experience or those willing to complete an apprentice program as such the cpc exam is recommended for individuals who have already started their coding career that won't prevent us from going over the basics of this important exam

F in Exams: The Very Best Totally Wrong Test Answers (Unique Books, Humor Books, Funny Books for Teachers) 2011-02-23

features humorous but incorrect answers to challenging test questions in biology physics chemistry psychology english history business geography and technology

Examination Questions and Answers in Basic Anatomy and Physiology 2018-04-06

this second edition provides 2400 multiple choice questions on human anatomy and physiology and some physical science separated into 40 categories the answer to each question is accompanied by an explanation each category has an introduction to set the scene for the questions to come however not all possible information is provided within these introductions so an anatomy and physiology textbook is an indispensable aid to understanding the answers the questions have been used in end of semester examinations for undergraduate anatomy and physiology courses and as such reflect the focus of these particular courses and are pitched at this level to challenge students that are beginning their training in anatomy and physiology the question and answer combinations are intended for use by teachers to select questions for their next examinations and by students when studying for an upcoming test students enrolled in the courses for which these questions were written include nursing midwifery paramedic physiotherapy occupational therapy nutrition and dietetics health sciences exercise science and students taking an anatomy and physiology course as an elective
