i believe that every man has the potential to pull himself from the mud of which he was created up to the highest point of stardom to overcome the greatest of indignities whatever may be served to him and demonstrate the greatest of inspirational abilities making mankind far better for his appearance on this earth if he chooses as brief as it may be i believe that every man is sacred and when he realizes his individual worth he cannot help but strive for perfection and though he cannot find it in his own strength will realize that the god who made him loves him and will give him the strength he needs to overcome all tribulation and failure that we were made to be happy and excited about our existence and that we should live and learn to love life and embrace all it has to offer passionately eliminating the bad and enhancing the good for ourselves and our fellow man it is our god given responsibility to take this gift of life and the earth upon which we were given to live to learn to love god and our fellow man and that our journey is solely our own and affects all of us for the worse or the better according to the choices we make guided by our character and whether we like it or not all of our chosen activities affect each other and should lift up our fellow man as sacred and special as we lift ourselves up individually and to never forget that we are not here alone that god is watching every step we take and every action in our lives and we are held in judgment for how we treat ourselves our fellow man and our relationship with our heavenly father

most eco friendly books start with terror inducing lists of the carcinogenic chemicals you are liberally slathering all over every single surface in your house painting most people as as unwitting eco villains happily lysol ing your way straight to hell well readers can just relax and unpack the plastic bags no guilt trips today at this point i think we all know that cleaning with bleach is bad and pop cans should go into the recycling we re beyond that yes all you need is less is about realistically adopting an eco friendly lifestyle without either losing your mind from the soul destroying guilt of using a plastic bag because you forgot your reusable ones in the trunk of your car again or becoming a preachy know it all whom everyone loathes from the tips of her organically shampooed hair to the toes of her naturally sourced recycled sandals it s all gotten kind of complicated hasn t it these days you re not green enough unless you quit your day job and devote your entire life to attaining an entirely carbon neutral lifestyle or throw out all of your possessions and replace them with their new green alternatives this whole eco friendly thing seems to have devolved into a horrific cycle of guilt shaming and one upping and as a result people are becoming exhausted and getting annoyed and oh my god we are living in a world where one of my grocery bags says this reusable bag makes me better than you it doesn t have to be this way it is possible to take easy baby steps towards a more earth friendly lifestyle without stress guilt
