### **Entrepreneurial society 2015**

small medium enterprises smes contribute to economic growth and job creation or do they this idea has become so widely accepted that it is even stated as an accepted truth in many academic papers and by many leading experts in the field the truth might be very different however and this book focuses on establishing the veracity of this notion as well as highlighting what conditions must hold true for smes to contribute to either economic growth or job creation or both

### **The Entrepreneurial State 2018-03-22**

this dissertation aims to shed light on dynamics of new forms of entrepreneurial finance in general and crowdfunding in particular from three different following aspects first we conduct an exhaustive search of all media reports on kickstarter campaign fraud allegations from 2010 through 2015 and determine campaign features that are associated with a higher probability of observing fraud using multiple matched samples of non fraudulent campaigns we also document the short term negative consequence of possible breaches of trust in the market using a sample of more than 270 000 crowdfunding campaigns posted from 2010 through 2018 on kickstarter our results show that crowdfunding projects launched around a significant misconduct detection on kickstarter tend to have a lower probability of success raise less funds and attract fewer backers second using a sample of 230 255 crowdfunding campaigns 2013 2018 on kickstarter and drawing upon previous empirical evidence the statistically significant effect of five variables on campaign success is documented to date numerous studies have focused on determining factors affecting crowdfunding success however it is extremely difficult to compare results across papers as each use incompatible specifications and different control variables the identified variables aim to measure the intensity of competition creator's crowdfunding experience project quality creator confidence portal recognition and project size furthermore the effect of campaign creator's citizenship as well as project location on funding success is investigated third and drawing upon previous findings on the effect of biological factors on investment behavior and entrepreneurship a significant positive relationship between fwhr facial width to height ratio of the hedge fund managers in the sample 1994 2016 and fund's risk is documented the association between facial masculinity of male entrepreneurs and their fund raising outcome is also investigated using a sample of abc channel's shark tank show 2009 2014 the results are in line with previous findings on the positive correlation between fwhr and testosterone a hormone which its role in describing behavioral patterns such as competitiveness and risk taking is well established the study sheds light on the factors that are not incorporated in economic models but may significantly affect financial risk taking and performance as well as entrepreneurial outcomes
