American Men of Science

1970

profiles living persons in the physical and biological fields as well as public health scientists engineers mathematicians statisticians and computer scientists

A Biographical Directory

1969

excerpt from american men of science a biographical directory the thousand leading men of science have been again selected by the methods that were used before and stars have been added to the subjects of research in the case of 269 new men who have obtained places on the list the editor s object in selecting this group of scientific men has been to make a study of the conditions on which scientific research depends and so far as may be to improve these conditions there are printed as an appendix the two statistical studies that have been made about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

American Men and Women of Science

2010

rookledge s international handbook brings together for the first time in one convenient reference book brief biographies of over 175 type designers it provides a fascinating insight into the personalities behind most of the text type faces used today and to the circumstances surrounding their design starting with the first printed book guttenberg s 42 line bible of 1455 all the major figures are covered designers punch cutters teachers and manufacturers and the story is brought up to date by including some of the younger designers such as neville brody and zuzana licko as well as established designers like matthew carter and adrian frutiger preceding the alphabetical directory a short essay outlines the main trends in type design and two indexes by subject and by typeface and a glossary of technical terms complete the work making it a unique reference book for both professional and student jacket
