the current political standoffs of the war on terror illustrate that the interaction within and between the so called western and middle eastern civilizations is constantly in flux a recurring theme however is how islam and muslims signify the enemy in the western socio cultural imagination and have become the other against which the west identifies itself in a unique and insightful blend of critical race feminist and post colonial theory sunera thobani examines how islam is foundational to the formation of western identity at critical points in its history including the crusades the reconquista and the colonial period more specifically she explores how masculinity and femininity are formed at such pivotal junctures and what role feminism has played in the wars against radical islam exposing these symbiotic relationships thobani explores how the return of religion is reworking the racial gender and sexual politics by which western society defines itself and more specifically defines itself against islam contesting islam constructing race and sexuality unpacks conventional as well as unconventional orthodoxies to open up new spaces in how we think about sexual and racial identity in the west and the crucial role that islam has had and continues to have in its development

Contesting Islam, Constructing Race and Sexuality

2020-12-10

in recent decades there has been many attempts to describe explore and explain the new post modern capitalism of the twenty first century in this context this book looks at one of the most exciting strands of this research in the late twentieth century the flexible specialisation research programme fsrp drawing on the history of ideas discourse and literature on capitalism of the last four decades this book shows that although flexible specialisation anticipated some of the ways in which capitalism was being transformed in the late twentieth century they underestimated and failed to anticipate the forms of creative destruction and corporate digital control which were becoming embedded in the global capitalist accumulation dynamic itself the sudden disappearance of the soviet union and the end of history failed to open up the pathway for new forms of modern social democracy but gave rise instead to the new digital behemoths today the classical tendencies of capitalism as anticipated by marx are all too present and despite talk of post capitalism and digital techno feudalism the landscape of monopolyfinance capital has consolidated itself the book counterposes the fsrp with the various marxist interpretations of the capitalist transition together with the wider social and economic theories that emerged in the first decades for the twenty first century around for example the great acceleration de growth and post growth this book will be of interest to all readers concerned with heterodox political economy critical social theory intellectual history and above all the prospects for social transformation leading to social justice and an egalitarian enlightenment

American Book Publishing Record

2005

jean baudrillard was one of the foremost intellectual figures of the late twentieth century and his work is currently reaching a new prominence in the english speaking world known as the high priest of postmodernity baudrillard never directly addressed theological concerns however his provocative analysis of the changing nature of reality subjectivity and agency is of increasing importance to contemporary theology

furthermore his mode of cultural analysis which he himself describes as mystical provides fruitful possibilities for theological reasoning in the post idealist world he describes james walters provides the context of baudrillard s writing and identifies key influences he then sets out his core ideas drawing in theological responses and relating them to theological concerns finally he highlights some areas of his work of particular theological interest

The Transformations of Contemporary Capitalism

2023-10-02

gerald moore shows how the problematic of the gift drives and illuminates the last century of french philosophy by tracing the creation of the gift as a concept from its origins in philosophy and the social sciences right up to the present moore shows

Baudrillard and Theology

2012-06-21

outlaw territories environments of insecurity architectures of counterinsurgency traces the relations of architecture and urbanism to forms of human unsettlement and territorial insecurity during the 1960s and 70s investigating a set of responses to the growing urban unrest in the developed and developing worlds outlaw territories revisits an era when the discipline of architecture staked out a role in global environmental governance and the biopolitical management of populations felicity d scott demonstrates how architecture engaged the displacement of persons brought on by migration urbanization environmental catastrophe and warfare and at the same time how it responded to the material environmental psychological and geopolitical transformations brought on by postindustrial technologies and neoliberal capitalism after world war ii at the height of the us led war in vietnam and cambodia and ongoing decolonization struggles in many parts of the world architecture not only emerged as a target of political agitation on account of its inherent normativity but also became heavily imbricated within military legal and humanitarian apparatuses and scientific and technological research dedicated to questions of international management and security once architecture became aligned with a global matrix of forces concerned with the environment economic development migration genocide and war its conventional role did not remain unchallenged but shifted at times toward providing strategic expertise for institutions responding to transformations born of neoliberal capitalism outlaw territories interrogates this nexus and questions how and to what ends architecture and the environment came to be intimately connected to the expanded exercise of power within shifting geopolitical frameworks of this time

Outlaw Territories

2016-05-20

during his lifetime henri lefebvre 1901 1991 was renowned in france as a philosopher sociologist and activist although he published more than 70 books few were available in english until the production of space was translated in 1991 while this work often associated with geography has influenced educational theory s spatial turn educationalists have yet to consider lefebvre s work more broadly this book engages in an educational reading of the selection of lefebvre s work that is available in english translation after introducing lefebvre s life and works the book experiments with his concepts and methods in a series of five spatial histories of educational theories in addition to the production of space these studies develop themes from lefebvre s other translated works rhythmanalysis the explosion the three volumes of critique of everyday life and a range of his writings on cities marxism technology and the bureaucratic state in the course of these inquiries lefebvre s own passionate interest in education is uncovered his critiques of bureaucratised schooling and universities the analytic concepts he devised to study educational phenomena and his educational methods throughout the book middleton demonstrates how lefebvre s conceptual and methodological tools can enhance the understanding of the spatiotemporal location of educational philosophy and theory bridging disciplinary divides it will be key reading for researchers and academics studying the philosophy sociology and history of education as well as those working in fields beyond education including geography history cultural studies and sociology

Reading the Everyday

2005

postcolonial locations seeks to clarify the meaning of the postcolonial through close textual readings and prioritises material and located readings over more abstract theoretical discussions it seeks to re orient the field by providing practical explorations of what the discipline is for the book begins with an introduction of the key theoretical debates in the field between the universal and the particular the global and the local but it then goes on to demonstrate via a series of close textual readings that these distinctions are not always useful and that we can achieve a more comprehensive and complete reading of the multiple times places and texts in which colonial power is both exerted and fought an engaging and comprehensive guide to contemporary postcolonial studies this book is essential reading for students as well as professors

Henri Lefebvre and Education

2013-11-07

the global social justice movement attempts to build a more equitable democratic and environmentally sustainable world however this book argues that actors involved need to recognise knowledge including scientific and technological systems to a greater extent than they presently do the rise of the occupy movement the arab spring and the wikileaks controversy has demonstrated that the internet can play an important role in helping people to organise against unjust systems while governments may be able to control individual activists they can no longer control the flow of information however the existence of new information and communications technologies does not in itself guarantee that peoples movements will win out against authoritarian governments or the power of economic elites drawing on extensive interviews and fieldwork this book illustrates the importance of contributions from local movements around the world to the struggle for global justice including detailed case studies on opposition to genetically modified crops in the south of india and the digital liberties movement this book is vital reading for anyone trying to understand the changing relationship between science technology and

progressive movements around the world this book will be of interest to students and scholars of international politics social movements global justice and internet politics

Postcolonial Locations

2020-10-20

considerable research policy and media attention has focused recently on drug use in britain wider europe the us and other advanced western societies such as australia and canada however the place of drugs in other cultural contexts has received far less attention little is known about the use of drugs in non western societies and this lack of comparative knowledge hinders a broader understanding of drug use the way problems are attached to it and the nature of inappropriately applied social and regulatory policies this book examines drug use including alcohol in different cultural contexts showing how the claim of tradition can persist even while the impetus toward change is pervasive in some cases change is strongly resisted in others its effects are profound and potentially highly destructive in a world of globalization western investment and leisure tourism can combine with the profiteering of international drug trafficking to transform traditional patterns of intoxicant use in a world of post colonialism the legacies of past impositions are still causing tragedies and in a world of western led drug control policies unproblematic cultural incorporation of drug use into everyday life and sacred ritual is threatened by remote and ill informed politicians and bureaucracies this book will be of interest to academics students and receptive policy audiences interested in understanding drugs and the issues raised by their use in unfamiliar contexts

Global Justice and the Politics of Information

2014-09-19

in academia the effects of the cultural turn have been felt deeply in everyday life tenets from cultural politics have influenced how people behave or regard their options for action such as the reconfiguration of social movements protests and praxis in general

Drug Use and Cultural Contexts 'beyond the West'

2004

the war of june 1967 between israel and arab states was widely perceived as being forced on israel to prevent the annihilation of its people by arab armies hovering on its borders documents now declassified by key governments question this view the uk ussr france and the usa all knew that the arab states were not in attack mode and tried to dissuade israel from attacking in later years this war was held up as a precedent allowing an attack on a state that is expected to attack it has even been used to justify a pre emptive assault on a state expected to attack well in the future given the lack of evidence that it was waged by israel in anticipation of an attack by arab states the 1967 war can no longer serve as such a precedent this book seeks to provide a corrective on the june 1967 war

Handbook of Cultural Politics and Education

2010-01-01

Žižek and heidegger offers a radical new interpretation of the work of slavoj Žižek one of the world s leading contemporary thinkers through a study of his relationship with the work of martin heidegger thomas brockelman argues that Žižek s oeuvre is largely a response to heidegger s philosophy of finitude an immanent critique of it which pulls it in the direction of revolutionary praxis brockelman also finds limitations in Žižek s relationship with heidegger specifically in his ambivalence about heidegger s techno phobia brockelman s critique of Žižek departs from this ambivalence a fundamental tension in Žižek s work between a historicist critical theory of techno capitalism and an anti historicist theory of revolutionary change in addition to clarifying what Žižek has to say about our world and about the possibility of radical change in it Žižek and heidegger explores the various ways in which this split at the center of his thought appears within it in Žižek s views on history or on the relationship between the revolutionary leader and the proletariat or between the analyst and the analysand

The Six-Day War and Israeli Self-Defense

2013

an important resource for scholars of contemporary art and architecture this volume considers contemporary art that takes architecture as its subject concentrated on works made since 1990 contemporary art about architecture a strange utility is the first to take up this topic in a sustained and explicit manner and the first to advance the idea that contemporary art functions as a form of architectural history theory and analysis over the course of fourteen essays by both emerging and established scholars this volume examines a diverse group of artists in conjunction with the vernacular canonical and fantastical structures engaged by their work i manglano ovalle matthew barney monika sosnowska pipo nguyen duy and paul pfeiffer are among those considered as are the compelling questions of architecture s relationship to photography the evolving legacy of mies van der rohe the notion of an architectural unconscious and the provocative concepts of the unbuilt and the unbuildable through a rigorous investigation of these issues contemporary art about architecture calls attention to the fact that art is now a vital form of architectural discourse indeed this phenomenon is both pervasive and in its individual incarnations compelling a reason to think again about the entangled histories of architecture and art

Zizek and Heidegger

2008-12-22

in the first half of this book hal foster surveys our new political economy of design exploring the marketing of culture and the branding of identity the development of spectacle architecture and the rise of global cities in the second half he examines the historical relations of modern art and the modern museum the conceptual vicissitudes of art history and visual studies the recent travails of art criticism and the double aftermath of modernism and postmodernism written in a lively style design and crime offers historical sketches and contemporary test cases in an attempt to illuminate the conditions for critical culture in the present

contemporary political economic fortunes seems to mock our best efforts to understand the forces that drive development in the world economy david harvey is the single most important geographer writing today and a leading social theorist of our age offering a comprehensive critique of contemporary capitalism in this fascinating book he shows the way forward for just such an understanding enlarging upon the key themes in his recent work the development of neoliberalism the spread of inequalities across the globe and space as a key theoretical concept both a major declaration of a new research programme and a concise introduction to david harvey s central concerns this book will be essential reading for scholars and students across the humanities and social sciences

Design and Crime

2003

there are things that can be done and are done to life on earth whether it be human animal or plant life which even if they do not involve or produce any suffering are still considered morally wrong by a large proportion of the public such things include changing the nature of living beings by means of genetic engineering in order to enhance their health or more likely with animals and plants their utility or impairing their ability to live autonomously or unduly instrumentalizing them yet many scientists are puzzled about the unwillingness of the public to feel much enthusiasm about a technology that in their view promises great benefits to humans and does not seem to cause more harm to animals than other practices which most of us do not question at all in this book michael hauskeller takes public fears seriously and offers the idea of biological integrity as a clarifying principle which can then be analyzed to show that seemingly irrational public concerns about genetic engineering are not so irrational after all and that a philosophically sound justification of those concerns can indeed be given

Spaces of Global Capitalism

2019-03-12

adorno and modern theatre explores the drama of edward bond david rudkin howard barker and sarah kane in the context of the work of leading philosopher theodor w adorno 1903 1969 the book engages with key principles of adorno s aesthetic theory and cultural critique and examines their influence on a generation of seminal post war dramatists

Biotechnology and the Integrity of Life

2012-10-01

a bestselling author in his own time and long after sir walter scott was not only a writer of thrilling tales of romance and adventure but also an insightful historical thinker and literary craftsman over the last two decades scholars have come to see him as an important figure in romantic period literature scottish literature and the development of the historical novel walter scott and contemporary theory builds on this renewed appreciation of scott s importance by viewing his most significant novels from waverley and rob roy to ivanhoe redgauntlet and beyond through the lens of contemporary critical theory by juxtaposing pairings of scott s early and later novels with major contemporary theoretical concepts and the work of such thinkers as alain badiou judith butler jacques derrida and slavoj žižek this book uses theory to illuminate the complexities of scott s fictions while simultaneously using scott s fictions to explain and explore the state of contemporary theory

Adorno and Modern Theatre

2016-04-29

the first major examination of the new atheism as a literary phenomenon

Walter Scott and Contemporary Theory

2013-02-14

decolonizing time work leisure and freedom demonstrates the importance of time as a central category for political theory providing not only a history of the fight for time through political feminist and critical theory but also assessing this tradition in the context of the united states

The New Atheist Novel

2010-04-15

this volume brings together about 50 scientists and researchers from the four corners of the world to redefine and anticipate tomorrow s values and reflect on the direction these values may lead humanity publisher s description

Decolonizing Time

2014-09-17

this collection of essays investigates the convergence between the postmodern politics of mobility and a politics of metaphor a politics in other words in the context of which the production and displacement of meanings constitute the major stakes ranging from discussions of re territorialization multiculturalism digisporas and transnational politics and ethics to september 11th the pentagon s new map american legislation on chinese immigration gianni amelio s film lamerica keith piper s online installations and doris salcedo s atrabiliarios the collection aims to follow three different theoretical trajectories first it seeks to rethink our concepts of mobility in order to open them up to the complexity that structures the thoughts and practices of a global order second it critically examines the privileged position of concepts and metaphors of mobility within postmodern theory in juxtaposing conflictual theoretical formulations the book sets out to present the competing responses that fuel academic debates around this issue finally it evaluates the influence of our increasingly mobile conceptual frameworks and everyday experience on the redefinition of politics that is currently under way especially in the context of post marxist theory its hope is to contribute to the production of alternative political positions and practices that will address the conflicting desires for attachment and movement marking postmodernity

The Future of Values

2004

in his latest book patrick brantlinger probes the state of contemporary america brantlinger takes aim at neoliberal economists the tea party movement gun culture immigration waste value surplus people the war on terror technological determinism and globalization an invigorating return to classic cultural studies with its concern for social justice and challenges to economic orthodoxy states of emergency is a delightful mix of journalism satire and theory that addresses many of the most

pressing issues of our time

Metaphoricity and the Politics of Mobility

2016-08-01

southerners have a reputation as storytellers as a people fond of telling about family community and the southern way of life a compelling book about some of those stories and their consequences one homogeneous people examines the forging and the embracing of southern pan whiteness as an ideal during the volatile years surrounding the turn of the twentieth century trent watts argues that despite real and significant divisions within the south along lines of religion class and ethnicity white southerners especially in moments of perceived danger asserted that they were one people bound by a shared history a love of family home and community and an uncompromising belief in white supremacy watts explores how these southerners explained their region and its people to themselves and other americans through narratives found in a variety of forms and contexts political oratory fiction historiography journalism correspondence literary criticism and the built environment watts examines the assertions of an ordered homogeneous white south and the threats to it in the unsettling years following the end of reconstruction through the early 1900s in three extended essays on related themes of race and power the book demonstrates the remarkable similarity of discourses of pan whiteness across formal and generic lines in an insightful concluding essay that focuses on an important but largely unexamined institution mississippi s neshoba county fair watts shows how narratives of pan white identity initiated in the late nineteenth century have persisted to the present day written in a lively style one homogeneous people is a valuable addition to the scholarship on southern culture and post reconstruction southern history trent watts is the editor of white masculinity in the recent south his work has appeared in southern cultures and the new encyclopedia of southern culture he is assistant professor of american studies at the missouri university of science and technology

States of Emergency

2013-09-25

drawing on the tools of game design to fix democracy anyone who has ever been to a public hearing or community meeting would agree that participatory democracy can be boring hours of repetitive presentations alternately alarmist or complacent for or against accompanied by constant heckling often with no clear outcome or decision is this the best democracy can offer in making democracy fun josh lerner offers a novel solution for the sad state of our deliberative democracy the power of good game design what if public meetings featured competition and collaboration such as team challenges clear rules presented and modeled in multiple ways measurable progress such as scores and levels and engaging sounds and visuals these game mechanics would make meetings more effective and more enjoyable even fun lerner reports that institutions as diverse as the united nations the u s army and grassroots community groups are already using games and game like processes to encourage participation drawing on more than a decade of practical experience and extensive research he explains how games have been integrated into a variety of public programs in north and south america he offers rich stories of game techniques in action in children s councils social service programs and participatory budgeting and planning with these real world examples in mind lerner describes five kinds of games and twenty six game mechanics that are especially relevant for democracy he finds that when governments and organizations use games and design their programs to be more like games public participation becomes more attractive effective and transparent game design can make

democracy fun and make it work

One Homogeneous People

2010-09-30

globalization's threat to artists and intellectuals and how they can rebut it pierre bourdieu described by the nation as worthy of the militant mantle of sartre and foucault here continues the themes advanced so successfully in his previous book acts of resistance firing back is an eloquent dissection of globalization's intellectual and cultural role throughout the world and a discussion of the ways in which effective opposition to it can be mounted bourdieu examines europe's potential as a counterweight to america's globalizing policy and discusses how intellectuals and those working in the cultural sphere can create meaningful alternatives he also raises challenging questions about the depoliticization of the academic world arguing that scholars can no longer maintain that their research is objective or value free

Making Democracy Fun

2014-02-21

we are everywhere is a whirlwind collection of writings images and ideas for direct action by people on the frontlines of the global anticapitalist movement this is a movement of untold stories because those from below are not those who get to write history even though we are the ones making it we are everywhere wrenches our history from the grasp of the powerful and returns it to the streets fields and neighbourhoods where it was made

Firing Back

2003

dangerously overpowered they fought for their lives in the city's immense fortress gala i janghi or the house of war at risk were the military gains of the entire campaign if the soldiers perished or were captured the entire effort to outmaneuver the taliban was likely doomed a riveting story of the brave and resourceful american warriors who rode into afghanistan after 9 11 and waged war against al qaeda tom brokaw doug stanton's account touches the mythic the soldiers on horses combined ancient strategies of cavalry warfare with twenty first century aerial bombardment technology to perform a seemingly impossible feat moreover their careful effort to win the hearts of local townspeople proved a valuable lesson for america's ongoing efforts in afghanistan with spellbinding action packed prose the book reads more like a novel than a military history the horse soldier's secret mission remains the us military's finest moment in what has since arguably been a muddled war usa today

The Business of War

2006

this collection of essays examines the life and thought of agnes heller who rose to international acclaim as a marxist dissident in eastern europe then went on to develop one of the most comprehensive oeuvres in contemporary philosophy putting forward a distinctive ethical theory and analyses of a vast range of topics covering most every philosophical area here philosophers sociologists journalists and political scientists contextualize compare and assess different elements of heller's work the collection as a whole highlights relevant shifts within that work as well as its intrinsic consistency essays in the collection address the relationship between philosophy political practice and everyday life heller's theory of modernity and her ethical theory her recent scholarship on comedy and the biblical book of genesis her theories of radical needs and radical politics her aesthetic theory and questions about her relationship to feminist theory the collection includes heller's reflections on the collected essays as well as an early essay on her mentor lukocs that exposes her own steadfast engagement with certain practical and philosophical issues throughout her life's work

Horse Soldiers

2009-05-05

caribbean women writers and globalization offers a fresh reading of contemporary literature by caribbean women in the context of global and local economic forces providing a valuable corrective to much caribbean feminist literary criticism departing from the trend towards thematic diasporic studies helen scott considers each text in light of its national historical and cultural origins while also acknowledging regional and international patterns though the work of caribbean women writers is apparently less political than the male dominated literature of national liberation scott argues that these women nonetheless express the sociopolitical realities of the postindependent caribbean providing insight into the dynamics of imperialism that survive the demise of formal colonialism in addition she identifies the specific aesthetic qualities that reach beyond the confines of geography and history in the work of such writers as oonya kempadoo jamaica kincaid edwidge danticat pauline melville and janice shinebourne throughout scott's persuasive and accessible study sustains the dialectical principle that art is inseparable from social forces and yet always strains against the limits they impose her book will be an indispensable resource for literature and women's studies scholars as well as for those interested in postcolonial cultural and globalization studies

Engaging Agnes Heller

2009-03-16

recently a wall was built in eastern germany made of steel and cement blocks topped with razor barbed wire and reinforced with video monitors and movement sensors this wall was not put up to protect a prison or a military base but rather to guard a three day meeting of the finance ministers of the group of eight g8 the wall manifested a level of security that is increasingly commonplace at meetings regarding the global economy the authors of shutting down the streets have directly observed and participated in more than 20 mass actions against global in north america and europe beginning with the watershed 1999 wto meetings in seattle and including the 2007 g8 protests in heiligendamm shutting down the streets is the first book to conceptualize the social control of dissent in the era of alterglobalization based on direct observation of more than 20 global summits the book demonstrates that social control is not only global but also preemptive and that it relegates dissent to the realm of criminality the charge is insurrection but the accused have no weapons the authors document in detail how social control forecloses the spaces through which social movements nurture the development of dissent and effect disruptive challenges
