Management Studies 1987 using contemporary examples of business and management research predominantly within the context of india this book offers numerous tools and techniques which can be applied to a diverse range of research needs topics discussed include research designs sampling interviews focus groups case study research and mixed method research

Management Controls 1964 this book is the first of its kind on qualitative research in management in the indian context it covers the philosophy and practice of qualitative research and presents the journeys of 10 management scholars who describe their experiences of doing qualitative research while explaining their choice of varied methods both aspiring and experienced management researchers will find it an invaluable resource

Methodological Issues in Management Research 2019-11-11 our intention with this special issue is to continue a rich scholarly dialogue on producing insightful qualitative research in the management field being engaged in fieldwork through varied research endeavors we have experienced challenges and uncertainties when doing qualitative research e g najda janoszka 2016a 2016b daba buzoianu bira tudorie duduciuc 2017 daba buzoianu bira 2017 despite a growing number of studies pertaining to the interpretative approach there are no universal standards for conducting qualitative inquiry bluhm harman lee mitchell 2010 cassell symon 2015 moreover advocates of qualitative research have been arguing against development of such standards sinkovics alfoldi 2012 pratt 2009 because it could put at risk the fluid and emergent nature of qualitative research cassell symon 2015 hence the enduring dilemma relates to the balance between the creative inherent messiness of qualitative research and methodological rigor cyfert 2014 sinkovics alfoldi 2012 we agree with the standpoint of symon cassell and johnson 2016 that evaluation criteria should not marginalize alternative perspectives nor impose unified normative practices representing different research backgrounds strategic management communication as well as perspectives organizational individual we have discussed promising opportunities for management studies stemming from confronting distinct research traditions within an interpretive approach the biennial conference qualitative research in communication qrc in bucharest provided the perfect environment to enhance such a debate and resulted in a call for this special issue papers included in the issue do not contribute to the standardization trend but are expected to show the diversity of methods used and phenomena studied in the qualitative research in management

Management Studies Research Paper 1992 the book has well turned out to be a boon for researchers from academia as well as industry the book seemly meets the requirement and encounters the dilemma of a first time researcher in many ways the basics of research paper writing are taken well care in the previous editions of the handbooks as proceedings published by prestige institute of management and research gwalior the previous editions focused on steps to carry out review of literature setting objectives developing hypothesis selecting appropriate methods as per objectives drawing inferences followed by referencing styles the book not only provides insights to a first time researcher but also introduces them with the latest tools part one of the book presents introduction to e views as chapter 1 the chapter deals with step wise procedure to work with e views elaborately e views is widely used numerous econometric analyses along with statistical analysis e views provided analysis like cross section time series estimates and forecasts as well as does panel data analysis simultaneously chapter 2 is modestly written to introduce mendeley to the researcher mendeley is expedient for copious objectives like conducting systematic literature review research gap identification setting objectives thereafter and more over provides a most vital efficacy to manage research papers in a stress free manner mendeley is widely used amongst researchers across the globe as a referencing tool as well providing competence to incorporate any style of referencing within fraction of seconds thus taking research on next level part two of the book contains twelve research papers covering diverse domains like finance marketing hr and it the research papers are the sample papers exhibiting the concepts of writing a well structured paper and elaborating the procedures to be followed while writing a research paper the research papers included in the book are developed during the five day national research methodology workshop organized by prestige institute of management and research gwalior the paper writing work was divided into before during and after phases topic finalization measure development review of literature and data collection was done before the initiation of workshop among the teams of registered participants the entire methodology application of data analysis tools and discussion was done during the workshop post workshop i e the after phase was exclusively dedicated for strengthening the review of literature discussion of results and referencing followed by improvement in the overall structure and language of the research paper we hope the efforts put in the book will surely help readers

Qualitative Research in Management 2015-01-31 sage fundamentals of applied research the sage fundamentals of applied research far series brings together the essential and forward thinking articles on doing research in applied contexts with or for specific groups from the foremost publications and edited by established names in the field volumes showcase methodological innovations key debates and maintain a focus on the professional applied context of the research and on the

methodological and practical implications of doing research within institutional and socio cultural contexts of such research the series includes historically seminal pieces alongside the very best pieces from the last few years that express the cutting edge in the field

Exploring Management Through Qualitative Research 2018-01-01 this accessible and expansive yet remarkably concise textbook is designed to help readers with their research project as well as guiding them through the key methods of collecting and analysing qualitative data this book provides invaluable information on writing up their research and how to get published now in its third edition qualitative research in business and management has been fully updated to include a range of recent examples of aspects of qualitative research in action and a new look at the methods and ethics of using social media data

Handbook on Writing Research Paper in Social Science Using Advance Tools 2022-10-31 the present book project on research design which is planned in english is intended to create an innovative textbook that can be used at university undergraduate and graduate levels in internationally oriented education in the german speaking countries this textbook shall provide comprehensive guidance for students when tackling their applied research papers instead of reiterating qualitative and quantitative methods it focuses on how to come up with an appropriate research design that allows the student to make the intended intellectual contribution starting from the desired hypothetical conclusion or statement the student will be guided through the process of finding the appropriate research question that will be answered by such a statement and the required research design consisting of data collection and data analysis that allows for such a statement as the conclusion of the study common research designs in business and management i e well beyond the standard research designs of social sciences and curtailed to the focus area will be described with regard to their suitability to answer specific kinds of questions as well as the idiosyncrasies of the these designs and their impact on the written research reports examples for each research design will be provided as well as guidance about how to write about such research

Action Research in Business and Management 2016-09-27 research paper postgraduate from the year 2009 in the subject business economics business management corporate governance grade a university of auckland language english abstract scholars have long noticed a considerable gap between organizational research findings and management practices although much has been written about the causes and consequences of this gap little practicable suggestions have been made to narrow it this research paper acknowledges the existence of the research practice gap in general and in the field of international management im in particular it views the gap in terms of a knowledge transfer and a knowledge production problem and includes causes specific to the field of international management the suggestions provided to narrow the research practice gap are structured into academic initiatives and practitioner initiatives suggestions of academic initiatives refer to the academic publication process researcher practitioner interaction contextualization and context theory suggestions of practitioner initiatives refer to implementation issues and the role of practitioners in the establishment of a more collaborative research paradigm

Qualitative Research in Business and Management 2019-10-28 in this advanced textbook michael myers brings a wealth of insight to the research process combining abstract and theoretical considerations with those of a practical nature such as tips for interviewing or for the final stage of writing up myers establishes an expansive resource for those involved in qualitative research that will aid them from start to finish

Research Design in Business and Management 2021-11-09 the academy of management is proud to announce the inaugural volume of the academy of management annals this exciting new series follows one guiding principle the advancement of knowledge is possible only by conducting a thorough examination of what is known and unknown in a given field such assessments can be accomplished through comprehensive critical reviews of the literature crafted by informed scholars who determine when a line of inquiry has gone astray and how to steer the research back onto the proper path the academy of management annals provide just such essential reviews written by leading management scholars the reviews are invaluable for ensuring the timeliness of advanced courses for designing new investigative approaches and for identifying faulty methodological or conceptual assumptions the annals strive each year to synthesize a vast array of primary research recognizing past principal contributions while illuminating potential future avenues of inquiry volume 1 of the annals explores a wide spectrum of research corporate control nonstandard employment critical management physical work environments public administration team learning emotions in organizations leadership and health care creativity at work business and the environment and bias in performance appraisals ultimately academic scholars in management and allied fields e g sociology of organizations and organizational psychology will see the academy of management annals as a valuable resource to turn to for comprehensive up to date information published in a single volume every year by the preeminent association for management research

How can International Management Theory contribute to International Management Practice? 2009-11-16 operations management om is a multi faceted blend of

myriad academic and practical disciplines from engineering and economics via mathematics and marketing to systems and psychology to capture the state of the art the book reviews contemporary and classic scholarship in one of the oldest business and management disciplines to offer the reader a thought provoking point of entry into the selected sources the book curates its content as an imaginary exhibit each chapter a thematic om gallery process planning and control people strategy and measurement technology introduced by a description of some extraordinary artefacts paintings sculptures and architecture the content has been curated around three principles intended to benefit the casual reader and both new and established om scholars first it incorporates works that build on or help to distinguish fundamental tenets from more transitory fads second the text makes significant efforts to try and balance the gravitational pull of the factory even though this may not offer an accurate representation of the majority of the field and third to try to keep managerial rather than technical analytical concerns to the fore this concise book provides a useful overview of current and classic om research written by a leading authority it is intended to be a valuable and engaging resource for both students and scholars of business

Discussion Paper (University of Minnesota. Strategic Management Research Center). 2003 there is significant evidence that an effective organizational culture provides a major competitive edge higher levels of employee and customer engagement and loyalty translate into higher growth and profits many business leaders know this yet few are doing much to improve their organizations cultures they are discouraged by misguided beliefs that an executive s tenure and an organization s attention span are too short for meaningful transformation james heskett provides a roadmap for achievable and fast paced culture change he demonstrates that an effective culture supplies the trust that makes managing change of all kinds easier it provides a foundation on which changes in strategy can be based and it s a competitive edge that can t easily be hacked or copied examining leading companies around the world heskett details how organizational culture makes employees more loyal more productive and more creative he discusses how to quantify its effects in order to sell the notion of culture change to the organization and considers how to preserve an organization s culture in the face of the trend toward remote work hastened by the covid 19 pandemic showing how leadership can bring about significant changes in a surprisingly short time span win from within offers a playbook for developing and deploying culture that enables outsized results it is a groundbreaking demonstration of organizational culture s role as a foundation for strategic success and its measurable impact on the bottom line

Qualitative Research in Business & Management 2009 research paper postgraduate from the year 2016 in the subject business economics business ethics corporate ethics grade 1 4 course ethics and sales management language english abstract this paper can be regarded as a research analysis of the ethics in personal selling and sales management it contains the ethical decision making process the individual factors and the organizational factors

Reorganization of Work 1984 research paper from the year 2012 in the subject cultural studies miscellaneous course interkulturelles management language english comment englisch und deutsch abstract this research upgrades the intercultural paradigm by the transcultural paradigm in a consistent way that enables and facilitates global processes in the diverse domains that require effective management at a planetary scale

The Academy of Management Annals 2007 this paper discusses the validity and implementability of management knowledge produced by schools of business and public administration and or provided managers by consultants the paper raises ethical and epistemological questions about the separation of science and practice found in most schools of business and management the alternative that truth becomes known only when managers and scientist inquire jointly to solve an important management problem is explored as are the implications for the academic research enterprise

Accounting, Finance and Management Research Paper 1992 across the social sciences scholars are increasingly showing how people work to construct organizational life including the rules and routines that shape and enable organizational activity the identities of people who occupy organizations and the societal norms and assumptions that provide the context for organizational action the idea of work emphasizes the ways in which people and groups engage in purposeful reflexive efforts rooted in an awareness of organizational life as constructed in human interaction and changeable through human effort studies of these efforts have identified new forms of work including emotion work identity work boundary work strategy work institutional work and a host of others missing in these conversations however is a recognition that these forms of work are all part of a broader phenomenon driven by historical shifts that began with modernity and dramatically accelerated through the twentieth century this book introduces the social symbolic work perspective which addresses this broader phenomenon the social symbolic work perspective integrates diverse streams of research to examine how people purposefully and reflexively work to construct organizational life including the identities technologies boundaries and strategies that constitute their organizations in this book the authors define social symbolic work and introduce three forms self

work organization work and institutional work social symbolic work highlights people's efforts to construct the social world and focuses attention on the motivations practices resources and effects of those efforts this book explores eight distinct streams of social symbolic work research drawing on a broad range of examples from the worlds of business politics sports social movements and many others it provides researchers students and practitioners with an integrative theoretical framework useful in understanding social symbolic work a survey of the main forms of social symbolic work a rich set of theoretical opportunities to inspire new studies and practical methodological guidance for empirical research on social symbolic work

Operations Management 2020 new regulatory data reveal extensive price discrimination against non financial clients in the fx derivatives market the client at the 90th percentile pays an effective spread of 0.5 while the bottom quarter incur transaction costs of less than 0.02 consistent with models of search frictions in over the counter markets dealers charge higher spreads to less sophisticated clients however price discrimination is eliminated when clients trade through multi dealer request for quote platforms we also document that dealers extract rents from captive clients and market opacity but only for contracts negotiated bilaterally with unsophisticated clients

Working Paper Series NC 90-11. Women in Management Research Needs : Views from the Business Community./R.J. Burke, C.A. McKeen 1990 this is an excellent text for anyone wishing to explore the possibilities of a grounded theory approach in management and organizational research the first two parts ought to be essential reading in methods courses regardless of the field of investigation organization studies resources for conducting grounded theory are spread across a number of disciplines making it difficult for organization and management scholars to track them down this book describes the grounded theory approach for organization and management researchers needing to fully understand the possibilities and challenges of this method it brings together the broadly dispersed discussions of the logic and practices of grounded theory restoring this style of qualitative research for students and teachers of organization and management management research news given its content and style of writing this book will be useful not only to organisational scholars but also to those such fields as sociology nursing education and psychology mihaela kelemen nurse researcher this book describes the grounded theory approach for organization and management researchers needing to fully understand the possibilities and challenges of this method it brings together the broadly dispersed discussions of grounded theory's logic and practices restoring the grounded theory style of qualitative research for students and teachers of organization and management this book is particularly useful for graduate students involved in quantitative studies of organizational and managerial life and for academics teaching research methods courses in management and organization studies

Win from Within 2022-01-04 the purpose of this book is to establish the first formalised scholarly work on critical management studies cms in the south african context the book is a collection of seven chapters six of which employ a conceptual methodology and one of which follows an interpretive paradigm employing qualitative methods of inquiry cms is a relatively young school of thought arising in the early 1990s and still very much a peripheral movement within the academic discipline of management south africa has very little scholarship on cms as precious few scholars work in this space furthermore publication opportunities are virtually non-existent as cms is virtually unknown in the south african community of management scholars thus this book represents the first academic work on cms published in south africa written and reviewed by scholars who are familiar with the field the primary target readership would be management academics but it could also be a useful reference for postgraduate students in management

Research Paper Series 1998 reinvent your organization for the hybrid age hybrid work is here to stay but what will it look like at your company if your organization is holding on to inflexible pre pandemic policies about where and when your people work it may be risking a mass exodus of talent designing a hybrid workplace that furthers your business goals while staying true to your culture requires balancing experimentation with rigorous planning hybrid workplace the insights you need from harvard business review will help you adopt the best technological cultural and new management practices to seize the benefits and avoid the pitfalls of the hybrid age business is changing will you adapt or be left behind get up to speed and deepen your understanding of the topics that are shaping your company's future with the insights you need from harvard business review series featuring hbr's smartest thinking on fast moving issues blockchain cybersecurity ai and more each book provides the foundational introduction and practical case studies your organization needs to compete today and collects the best research interviews and analysis to get it ready for tomorrow you can't afford to ignore how these issues will transform the landscape of business and society the insights you need series will help you grasp these critical ideas and prepare you and your company for the future

Working Paper Series NC 88-31. Canada's Management Research Priorities (views of Academics and Managers)./Paul D. Bergman 1988 seminar paper from the year 2013 in the subject business economics business management corporate governance grade 1 0 european school of business reutlingen language english abstract management research is constantly criticized in the academic community to have very little impact on managers in practical life this problem is highly discussed in academic circles and often referred to as the utilization problem van aken 2004 or the rigor relevance dilemma gap fincham clark 2009 avener 2010 the problem is that the conducted management research is either scientifically verified but not relevant for practice or practically relevant but not scientifically verified van aken 2004 there are various explanations for this problem many researchers claim that a lack of sufficient communication presentation of management research is the root of the problem davies 2007 this is in accordance with the so called knowledge transfer problem shapiro kirkman courtesy 2007 others blame the little relevance of management research for practitioners denyer tranfield van aken 2007 which is reflected in the knowledge production problem shapiro kirkman courtesy 2007 furthermore management research is claimed as too descriptive van aken 2004 which means that management science is only describing and analyzing but not actually providing solutions to problems lastly some researchers describe management research as too fragmented in terms of research groups and knowledge products denyer tranfield van aken 2007 the researchers claim that too little cooperation between researchers restricts knowledge solutions and weakens the position of management research in order to increase relevance of management research and to create a clear academic identity tranfield van aken 2006 academic community calls for new research approaches particularly the so called design science approach van aken 2004 design science helps to actually design solutions to field problems but still keeping academic relevance in order to fulfill pettigrew s idea of accomplishing both academic and practical relevance pettigrew 1997 this paper aims to give the reader an overview on design science and its possible practical relevance in management research first of all the author will present the ideas of design science and its main determinants of major research contributors afterwards a comparison between design science and the often with design science presented action research and evidence based management approach is made chapter 3 will then present two examples of executed research and applied design science

Working Paper Series NC 88-01. Issues for Canadian Management Research Into Expert Systems./Peter C. Bell 1988 this book reviews the field of knowledge management taking a holistic approach that includes both soft and hard aspects it provides a broad perspective on the field rather than one based on a single viewpoints from computer science or organizational learning offering a comprehensive and integrated conception of knowledge management the chapters represent the best knowledge management articles published in the 21st century in knowledge management research practice and the european journal of information systems with contributors including ikujiro nonaka frada burstein and david schwartz most of the chapters contribute significantly to practise as well as theory the or essentials series presents a unique cross section of high quality research work fundamental to understanding contemporary issues and research across a range of operational research topics it brings together some of the best research papers from the highly respected journals of the operational research society also published by palgrave macmillan

Management & Accountancy Research Working Papers 1982 this book argues that china must become an innovation based economy to avoid the middle income traps and examines both the opportunities and challenges in meeting this goal

Working Paper Series NC 88-13. The Women in Management Research Program./Ronald J. Burke, Dorothy Mikalachki 1988 bachelor thesis from the year 2013 in the subject business economics business management corporate governance grade 2 0 university of tubingen department of international business language english abstract this paper s purpose is to give an overview of how distance in management research is measured and to overview the strong critique the corresponding measures have to face the paper s investigation brought several findings firstly that frameworks in which distance constructs develop are too wide in their definition and that these frameworks are insufficiently connected to each other what impedes the improvement of the strong criticised but in management research essential constructs secondly the paper illustrates the widespread disagreement among researchers and literature the paper gives suggestions how distance measures could be improved and contributes to a more outside of the box thinking by considering the whole distance construct furthermore it helps to build unbiased opinions of the thematic by not taking a side or giving suggestions whether on construct is superior towards another due to rising internationalization of businesses and the circumstance of having business partners suppliers and clients placed all around the world companies are fronting challenges like diversities in lifestyles languages cultural values and norms consumer preferences and buying power so it is not surprising that these differences or distances became an increasingly important topic in

international management research distance aspects are important for companies in evaluating and improving their international strategies in nearly every field of business especially when it comes to expansions in foreign investments through direct investments international transactions and joint ventures in purpose to be able to identify the extent of difference between countries that hymer called liability of foreignness management scholars evolved a broad rang

Ethics in Personal Selling and Sales Management. a Research Analysis 2017-05-03 currency risk management crm is vital for any business engaging in international trade fluctuations and uncertainty within currency markets mean that businesses must seek to effectively manage and anticipate potential risks when striking international deals in a rapidly changing and volatile global business environment crm is now more than ever of critical importance however what risks should businesses hedge and how with so many viable strategies for hedging currency exchange risk it is crucial that businesses either outsource or have a specialized team to ensure effective and efficient management of currency exchange risks but how does crm operate in an emerging market and what are the key factors that influence the chosen crm strategies organized in association with indian bank gitam s national conference on crm sought to highlight the trends problems and prospects of crm in india taken from the conference proceedings this book presents 9 innovative research papers that consider differing crm practices from a comparative study of india and china to an assessment of crm strategies used by commercial indian banks this book offers an invaluable insight into crm from the perspective of an emerging market as a whole this book addresses india s shift to a market determined exchange rate regime and the inevitable problems caused the by the high volatility of exchange rates aimed at students enrolled in commerce and management courses this collection of research papers will also be of interest to researchers in international finance
