The First Woman President of India Reinventing Leadership

2013-02-05

smt pratibha patil s splendid legacy in indian politics is not simply an accident in indian history but an unrelenting determination at her personal front as well as india s call of destiny for this diminutive but resolute woman her selfless service to the people of india in her more than fifty years in public life is an inspiration and with an ideal blend of private and public sphere she is a motivation for the women of india and beyond her initiatives ideas and insights and policy briefings form the text of this book

THE MAKING OF ADIVASI MAHASABHA

2019-07-04

the book revisits the concepts of the new politics of welfare and adivasi and indigenous livelihoods situating the existing body of knowledge of these subjects within the context of state policy and the socio cultural developments witnessed in india after independence specifically the impact of the mahatma gandhi national rural employment guarantee scheme mgnrega in the adivasi indigenous areas since india s independence the major challenge before the state has been how to provide employment to the vast amount of unskilled labour in rural areas in order to examine the functioning of institutions under mgnrega in a tribal community of andhra pradesh and odisha this book assesses the act s impact on and drawbacks regarding the socio economic condition of the indigenous people evaluating the constraints faced by the functionaries in implementing the scheme its findings point out the inefficiency and rampant corruption involved in the implementation of the mgnrega over the years the book will serve to contribute to raising awareness on the part of the targeted groups and above all to showing officials the importance of transparency and responsible governance for the effective implementation of this scheme india needs to develop its own pro active measures to cultivate a democracy of the oppressed in order to combat the current tyranny of the majority which prevails in the country its findings also provide new data showing that large scale mgnrega policy represents an important tool of mitigating violent conflict in india

Democracy of the Oppressed

2020-04-06

innovation is the eternal theme in human and social development it is the soul for a nation to advance and an inexhaustible driving power for a country to thrive preface the competitiveness of g20 nations written and edited by some of china s leading economic advisers and government officials this unique book reveals exactly how china views the competitiveness of the world s leading nations china s competitors using detailed research material and deep analysis it probes the innovative competitiveness of each member of the g20 and their future prospects the competitiveness of g20 nations argues that innovation is at the core of the growth prospects of each member of the g20 an approach that reveals some of the theories and reasons behind china s stratospheric economic growth readers will benefit from a detailed innovation profile of each g20 nation including china highlights perceived strengths weaknesses plus likely growth patterns published in association with social sciences academic press china

the protection of plant varieties and farmer s rights act 2001 promises to balance the intellectual property rights of plant breeders and farmers under one umbrella legislation however there remain several grey areas and the rights of farmers in reality are still tenuous though the rights framework was foregrounded on an understanding between non governmental organizations and industry there is lack of clarity at both conceptual and procedural levels in this context sophy k joseph analyses the impact of legal policy reforms during the ongoing second green revolution on farmers customary rights and livelihood the author discusses how the extension of private property rights to plant varieties seeds and other agrarian resources changed the demographic composition of the rural space with increased migration of cultivators to the cities the book argues that the transition from state interventionism

during the first green revolution to state abstention in the second green revolution has dramatically influenced india s conventional agrarian practices and traditions this work maps the evolutionary process of neoliberal economic and legal policies and its interference with primary concerns such as food security food sovereignty and agrarian self reliance of the country

Customary Rights of Farmers in Neoliberal India

2020-02-14

public health in india policy shifts and trends captures transitions in the public health debates in india from different vantage points it marks the erosions reflected mainly in policy changes that have taken place at the national level in the area of public health the analysis of selected articles attempts to understand the amnesia about the health of people that has pervaded not only the professional and the political class but also those who believe in an elitist bio medical perspective limited to hi tech interventions at the cost of a balanced view on healthcare this volume traces the history of public health debates in india over five decades and identifies the paradigm shifts in post independent india through contradictory approaches by state strategies and interventions the transition of health policies and shifts in the state s commitment towards health for all form part of these debates the series social change in contemporary india brings together key texts published in the prestigious journal social change from 1971 till present times these writings most of which are considered canonical address important issues in health education poverty and agriculture with special focus on disadvantaged groups these writings will help readers identify key points in the history of policymaking in india and major discourses and debates and their impact

Public Health in India

2022-01-31

this book deals with a wide range of issues related to rural urban migration in the context of neoliberal economic development in india focusing on three core areas first it traces state discourses on rural urban migration in india since the 1930s critically analysing its industrial labour rural and

urban programmes and policies second through data on longitudinal surveys undertaken in rural bihar in 1999 2011 and 2016 it examines changes in patterns of migration and sources of income estimates determinants and impacts of migration third based on fieldwork in the village and the city it presents an in depth account of a rural urban migration stream in contemporary india it shows how contrary to the results of conventional data sources such as the census and nso that mobility is high in rural bihar and has significantly increased over time as a result of rising labour demand in distant urban markets elsewhere in india further it also provides evidence of decoupling of agriculture from the rural in india combining quantitative and qualitative methods in development research this book will be of great interest to scholars and researchers of development studies migration studies development economics sociology demography public policy and south asian studies

regional powers such as india brazil and south africa pose a challenge to the global order but it is not always clear what that challenge is this edited volume identifies the global redistribution of material institutional and symbolic resources as fundamental goals of these states it also assesses their domestic capacities and global strategies and tactics to achieve these goals revised blurb to follow

Indian National Security and Counter-Insurgency

2020-01-31

this book explores state of art techniques based on methodological and modeling aspects of solid and hazardous waste management specifically focusing on the recent trends in data acquisition and robust modeling of the results obtained in addition to an in depth description of the recent regulatory paradigm for solid waste disposal and revealing insights into solid waste management models the book also addresses significant case history and remediation methodologies for sustainable development in emerging economies like india china and brazil the main emphasis is on a suitable regulatory framework with site specific baseline calibration and aimed at the robust modeling of contaminant transport and its remediation this is based on instructive case history in various locations regions worldwide the focus on recent modeling and quantification methods is the backbone of the book one of the major aspects discussed is the application of non invasive methods for studies related to the earth s interior which are increasingly preferred over invasive techniques thanks to their economic utility as well as robust techniques for the interpretation of geophysical data the increasing demand for groundwater and energy resources especially for rapidly emerging countries with large populations like india and china has made it vital to derive safe utilization approaches for our resources including suitable waste disposal and remediation methodologies that can be adopted for contaminated sites

India's 2019 Elections

2016-03-22

in india you can still find the kabaadiwala the rag and bone man he wanders from house to house buying old newspapers broken utensils plastic bottles anything for which he can get a little cash this custom persists and recreates itself alongside the new economies and ecologies of consumer capitalism waste of a nation offers an anthropological and historical account of india s complex relationship with garbage countries around the world struggle to achieve sustainable futures assa doron and robin jeffrey argue that in india the removal of waste and efforts to reuse it also lay waste to the lives of human beings at the bottom of the pyramid people who work with waste are injured and stigmatized as they deal with

sewage toxic chemicals and rotting garbage terrifying events such as atmospheric pollution and childhood stunting that touch even the wealthy and powerful may lead to substantial changes in practices and attitudes toward sanitation and innovative technology along with more effective local government may bring about limited improvements but if a clean new india is to emerge as a model for other parts of the world a binding morality that reaches beyond the current environmental crisis will be required empathy for marginalized underclasses dalits poor muslims landless migrants who live almost invisibly amid waste produced predominantly for the comfort of the better off will be the critical element in india s relationship with waste solutions will arise at the intersection of the traditional and the cutting edge policy and practice science and spirituality

Regional Powers and Global Redistribution

1876

this book explores how anti nuclear social movements impact the state s civil nuclear policy and its implementation by presenting a historical comparative case study of anti nuclear movements in india drawing on social movement theory and empirical methods the book demonstrates that the ability for anti nuclear movements to impede the inception of nuclear plants a key element of india s civil nuclear policy is determined by the movement s collective action repertoires the politicisation of nuclear power and the state s larger developmental paradigm and the openness of state input structures the case studies of anti nuclear movements in haripur kudankulam and kovvada demonstrate how the implementation of civil nuclear policy is also determined by the state s technical and financial capacity and effective international collaboration with a focus on theorisation of social movements and their impact combined with empirical studies of anti nuclear movements as well as the historical trajectory of civil nuclear development the book adds a new prism to the study of india s civil nuclear policy and anti nuclear opposition it will be of interest to researchers working on social movements state society relations energy studies and civil nuclear energy in the context of south asia and the global south

The Voters and Tax-payers of DeKalb County, Illinois

1876

the south asian economies constitute the largest and most densely populated region of the world with an estimated 1.4 billion plus people this is a larger market area than china this volume addresses south asia's opening up and attempts to integrate into the global economy the volume is unique among existing offerings on south asia in that it covers the dynamics of structural adjustments due to globalisation focusing on the development and welfare aspects of the region the contributions by a broad range of international experts from the disciplines of banking and finance economics management and political science are informed by three central themes the three themes are industry reforms and market adjustment economic performance and the effects on globalisation on specific industries and economic development poverty and welfare issues the volume adopts a broad interdisciplinary approach to these issues and will appeal to readers from across the business disciplines

The Voters and Tax-payers of De Kalb County, Illinois

2017-01-07

this book develops the term sustainable innovations and defines it on the basis of plant variety innovations that by their very nature i permit the in situ conservation of agrobiodiversity and genetic variability in diverse geographic and climatic conditions ii do not exclude any potential innovators from the process of innovation and thereby iii ensure that both formal and informal innovations can continue to take place in the generations to come in both the developed and developing world the book studies the indian plant variety protection act the upov acts and associated agricultural policies from a legal philosophical historical and economic perspective with the aim of determining the means of promoting sustainable innovations in plant varieties and identifying laws policies and practices that are currently acting as impediments to promoting the same

Modelling Trends in Solid and Hazardous Waste Management

2018-03-26

for a judiciary in a democracy dispensing justice is not only about doing justice but also about showing that justice is being done it is about giving reasons and creating a culture of justification the question becomes how to nurture such a culture a number of liberal democratic jurisdictions have answered this question in part with the adoption of the multi step method of evaluating the constitutionality of legislative infringements on fundamental rights widely known as proportionality analysis under proportionality analysis courts must engage in a structured process of reasoning this book deals with gender justice and proportionality analysis in india the author argues that the supreme court of india should consider adopting proportionality analysis for the adjudication of the fundamental right to sex equality in indian courts the book includes an analysis of canadian and south african proportionality analysis and makes some suggestions on how an indian proportionality analysis could be generated using this comparative investigation additionally the book proposes ways of applying the effects of socio political context on doctrine as well as doctrine s interpretive impact on adjudicated outcomes for gender thus making a contribution to feminist jurisprudence finally the author analyses indian gender equality jurisprudence demonstrating the inadequacies of the current doctrinal framework for achieving the goal of substantive gender equality and suggesting ways in which an indian proportionality analysis might be fashioned to address these inadequacies a novel examination of the gender situation in india in comparative perspective this book will be of interest to academics in the field of gender studies asian and comparative law and south asian studies

Waste of a Nation

2020-11-30

this book confronts the failings of current global economics to deliver the equity sustainability and community empowerment which humanity now needs to handle a troubled future the volume proposes an economy built from our society not the other way around the kyoto manifesto was built layer by layer over a period of 4 years based on broad ranging international symposia held in kyoto between 2014 and
